

Complete Interactive Library

[A Few More Back Injury Techniques \(short refresher\) \[E\]](#)

According to the National Safety Council and medical research, 70% of back problems result from degeneration of spinal discs; 20% of backaches are attributed to inflammation; 10% are due to actual back injuries and other miscellaneous causes.

Practicing safe lifting at home and work and having the right attitude about safety can be effective in preventing back injuries.

[A Practical Approach To Ladder Safety - French Interactive Online Training \[E\]](#)

This program discusses the basic precautions that will keep employees safe when using ladders. Viewers will also see the consequences of failing to follow these safe work practices.

[A Safety Carol - French Interactive Online Training \[E\]](#)

[Abrasive Blasting Interactive Training \[E,S\] \[2002\]](#)

[Abrasive Wheels Grinder Safety \(Gory\) Interactive Training \[E\] \[2011\]](#)

Abrasive wheels can be found in most maintenance shops and in some cases manufacturing. Persons who use this equipment must be well trained and attention to safety. Personal protective equipment should be worn when using the equipment. Injuries from grinders are lacerations or foreign body in nature. This course covers the safety requirements and specific hazards for this equipment.

[Absenteeism and Tardiness \[E\] \[2006\]](#)

[Accident Causes And Prevention \(Janitorial\) Interactive Video \[E\] \[2008\]](#)

Accident Causes and Prevention (Janitorial) Details

Accidents Causes and Prevention program is designed to help you have a better understanding of unsafe acts and how they contribute to accidents and injuries. There's a lot of discussion today about accidents and injuries. Why do they happen? What causes accidents and injuries? The answer can be found in statistics. The Insurance Industry, Governmental agencies, and the National Safety Council have analyzed employee accident investigations over the years and have determined that the overwhelming cause of most industrial accidents and injuries can be attributed to the unsafe acts of employees.

[Accident Investigation \(short refresher\) \[E\]](#)

[Accident Prevention and Countermeasures for Management \[E\]](#)

This course, developed in conjunction with the experts at the U.S. Department of Transportation's (DOT) Transportation Safety Institute (TSI), covers the Accident Preventability Evaluations portion of the Federal Motor Carrier Safety Administration (FMCSA) Accident Countermeasures Manual. Reduced accident rates translate into lower insurance costs, less lost time by drivers, lower repair costs, and safer highways for everyone. Establishing and employing a company standard for safe driving will help reduce accident rates.

[Accident Reporting - Supervisor's Guide Interactive \[E\] \[2008\]](#)

Accident Reporting - Supervisor's Guide Details

Accident investigation is an important part of a supervisor's responsibility and accident investigation. Accident investigation and reporting is a preventive effort. This program will concentrate on the importance of conducting a thorough investigation and why the information is necessary.

[Active Shooter: In The Workplace Interactive Online Training \[E,S\] \[2021\]](#)

All too often these days, we hear about active shooter incidents. Multiple shootings in nightspots, public areas... and

[ADA: Americans with Disabilities Act Interactive Training \[E\] \[2020\]](#)

[Adult, Child, And Infant CPR And AED Online Training \[E\] \[2011\]](#)

This program provides information on the skills and techniques to save lives. This is a review on adult, child and infant CPR and obstructed airway. AED equipment will be shown how and when to use. This program will teach the key guidelines essential for saving the life of a person needing help.

[AED - Automated External Defibrillators Interactive \[E\] \[2012\]](#)

AED - Automated External Defibrillators Details

Most people who go into sudden cardiac arrest will still have some electrical activity of the heart. The sooner an AED is attached, the greater chance of survival. An arrhythmia is any change from the normal sequence of electrical impulses. When the heart is in ventricular fibrillation, it is fluttering and will not allow the blood to reach the brain. Irreversible brain damage can occur within 4 to 6 minutes. The national average EMS response time is about 10 to 12 minutes. This program focuses on the laws pertaining to AED and proper procedures when assisting a person in need.

[Aerial Lifts in Industrial and Construction Environments: Types of Lifts and Their Hazards Interactive Training \[E,S\] \[2022\]](#)

Whether you find yourself hanging siding on a construction site, changing light bulbs in a warehouse or performing outdoor utility work, aerial lifts can help you reach areas that would otherwise be almost impossible to get to. But before you work with an aerial lift, you need to know what types of lifts you will encounter and the hazards that are associated with each one.

[Aerial Lifts in Industrial and Construction Environments: Working With And Around a Lift Interactive Online Training \[E,S\] \[2022\]](#)

Before you begin work with an aerial lift, you need to know how to inspect it properly, set it up and operate it safely. This doesn't just help to keep you safe...it can make sure everyone on the ground stays safe as well. Falling objects, equipment "tipovers" and even electrocution hazards can make working near an aerial lift risky. Knowing how to operate a lift safely, and being aware of these hazards could save you and your co-workers from serious harm. Atlantic Training's course on "Aerial Lifts in Industrial and Construction Environments: Working With And Around a Lift" is the second of a two-part series that has been designed to meet OSHA's training requirements in their "Mobile Elevated Work Platforms" (MEWPs) standard. The course discusses how to inspect an aerial lift, how to prepare to use a lift, how to operate an aerial lift and how to work on the ground near a lift safely.

[Alcoholism in the Workplace \[E\]](#)

Alcoholism is a disease which threatens families, the workplace and society. It's important for supervisors and co-workers to recognize the warning signs of alcoholism. The work-place must be kept free of alcoholism.

[Americans With Disabilities Act \(ADA\) \[E\] \[2006\]](#)

The American Disabilities Act (ADA) was signed into law on July 26, 1990. The goal of ADA is to allow Americans with disabilities to lead productive lives by providing minor accommodations. It is designed as a federal anti-discrimination statute to make public and private entities accessible to people with disabilities.

[Anhydrous Ammonia Interactive Online Training \[E\] \[2008\]](#)

This is a safety training program about the hazards of Anhydrous Ammonia and safe response to incidents involving this dangerous gas. Anhydrous Ammonia, NH₃, is widely used in agriculture and industry. Penetrating vapors from this gas are suffocating and can lead to severe health problems, even death. This exciting program outlines an active program of safety and inspection to prevent accidents in the workplace and during emergency response.

[Anti-Trust Law Made Simple Interactive Online Training \[E\] \[2018\]](#)

Unlock U.S. antitrust laws' secretsâ€”Sherman, Clayton, FTC Acts. Learn the dos and don'ts for thriving businesses legally.

[Asbestos \(Construction\) Online Course \[E\]](#)

Construction workers engaged in construction work where asbestos-containing materials are present or are presumed to be present (ACM and PACM) face additional hazards on the job. To protect these workers, OSHA has extensive rules for this type of work, including rules for air monitoring, medical surveillance, respiratory protection, safe work practices, and more. These are designed to keep workers safe and free from asbestos-induced illnesses

[Asbestos Cement Pipe Safety \(Public Agency\) Interactive Training \[E\] \[2010\]](#)

Asbestos has been used for many products such as fireproofing, pipe insulation, theatre curtains, siding, roofing, gaskets and packing, water and sewer pipe. In water and waste water applications, asbestos cement pipe may contain as much as 20% asbestos or more. Asbestos is used as re-enforcement of the pipe. This program focuses on working safely with asbestos cement pipe.

[Asbestos Exposure: Hazards and Prevention Interactive Online Training \[E,S\] \[2023\]](#)

This course explains all things asbestos, including why it is a health hazard and the methods used to protect workers from harm.

[Back Injury Prevention \(Foundries\) Interactive \[E\] \[2006\]](#)

Back Injury Prevention (Foundries) Details

Back Injury Prevention (Foundries) program will explain how the back works so you'll have enough information to make the right choices on how to lift anything safely. According to the National Safety Council and medical research, 20% of backaches are attributed to inflammation such as arthritis, 10% are due to actual back injuries and other miscellaneous causes, 70% result from degeneration of spinal discs. That's right; aging of the spinal disc material causes the most trouble and can cause extreme pain even from routine body motions. We'll also discuss how strains and muscles work so you can prevent these types of back injuries also.

[Back Injury Prevention \(Retail\) Interactive \[E\] \[2009\]](#)

Back Injury Prevention (Retail) Details

Back Injury Prevention program explains how the back works so you'll have enough information to make the right choices on how to lift anything safely. According to the National Safety Council and medical research, 20% of backaches are attributed to inflammation such as arthritis, 10% are due to actual back injuries and other miscellaneous causes, and 70% result from degeneration of spinal discs. We'll also discuss how strains and muscles work so you can prevent these types of back injuries also.

[Back Injury Prevention \(Waste Management\) Interactive \[E\] \[2008\]](#)

According to the National Safety Council and medical research, 70% of back problems result from degeneration of spinal discs; 20% of backaches are attributed to inflammation; 10% are due to actual back injuries and other miscellaneous causes. Practicing safe lifting at home and work and having the right attitude about safety can be effective in preventing back injuries. This program explains how the back works. We discuss how strains and muscles work so back injuries can be prevented.

[Back Injury Prevention Interactive Online \[E,S\] \[2009\]](#)

Back Injury Prevention Details

According to the National Safety Council and medical research, 70% of back problems result from degeneration of spinal discs; 20% of backaches are attributed to inflammation; 10% are due to actual back injuries and other miscellaneous causes. Practicing safe lifting at home and work and having the right attitude about safety can be effective in preventing back injuries. We discuss how strains and muscles work so back injuries can be prevented.

[Back Injury Prevention Through Exercise \(Schools\) \[E\]](#)

[Back Injury Prevention Through Exercise Interactive \[E\] \[2008\]](#)

Back Injury Prevention Through Exercise Details

Remember, a strong healthy back is less prone to injury.

This program outlines an effective approach to back injury prevention. Specifically, a routine of exercises will build the strength and endurance of your back. Remember, a strong healthy back is less prone to injury.

[Back Injury Responsibility Streaming Interactive \[E\] \[2005\]](#)

Back Injury Responsibility Details

This program is designed to help you understand the physical make up of the back. Experts Joe Higgins and Richard Hernandez offer their expertise on appropriate lifting techniques.

[Back Safety: Health and Wellness Interactive Online Training \[E,S\] \[2023\]](#)

The key to back safety is being proactive by understanding the hazards within your industry and the ergonomic changes that can reduce your exposure to those hazards.

[Back Safety: Industrial Work Settings Interactive Online Training \[E,S\] \[2023\]](#)

Do you work in an industrial setting? You know better than anyone else that your body takes a beating, but did you know that there are ways you can help minimize the wear and tear on your body over time - and also prevent injuries related to your work? Back injuries are avoidable.

[Back Safety: Office Work Settings Interactive Online Training \[E,S\] \[2023\]](#)

Do you work in an office setting? It might seem like a pretty safe place to work, but you are actually at risk for several injuries and exposed to several hazards – some of which you might never expect. Among these are back injuries.

[Backhoe/Loader Operations Online Training \[E\] \[2012\]](#)

Backhoes are one of the most common types of construction equipment. Backhoe loaders can dig, scrape and load material. With special attachments they can perform any required task. Only trained and authorized persons should operate a backhoe. Personal protective equipment must be worn when operating a backhoe. Backhoe loaders are complicated machines. It is important to know the equipment's capabilities. This program covers the maintenance and operation of a backhoe with emphasis on safety.

[Basic Electrical Safety In the Workplace Online Training \[E\] \[2009\]](#)

Basic Electrical Safety in the Workplace program gives a basic understanding of electricity. There are different types of electricity or electrical energy; low voltage, high voltage, static electricity, alternating current, direct current, and so on. This program is designed to make you more aware of electrical safety. It's important to understand how electricity works and preventing shocks.

[Best Practices for CMV Drivers: Right-of-Way and Intersections \[E\]](#)

This "best practices" course covers one topic included in the Safe Driving Practices for CMV Drivers course: Right-of-Way and Intersections.

[Bloodborne Pathogens in Healthcare Settings Interactive Online Training \[E,S\] \[2022\]](#)

Whether in routine procedures or emergencies, you are exposed to patients as you assist in or perform their care. Your job may involve transporting materials used to provide care – such as sheets, or vials of bodily fluid – or you may be a direct provider who comes into contact with patients' bodies regularly. Many routine medical tasks – and certainly emergency response scenarios – bring with them a risk for exposure to bloodborne pathogens. As a healthcare worker, your risk for exposure to these bloodborne pathogens is well above the norm. In this training, you will learn more about your risk and how to minimize that risk. We will also explore the role and responsibilities employers play, and what to do in the event of exposure.

[Bloodborne Pathogens: Standard Precautions in the Workplace Interactive Online Training \[E,S\] \[2021\]](#)

OSHA defines bloodborne pathogens as infectious "microorganisms that are present in human blood and can cause disease in humans." These potentially life-threatening pathogens include, but are not limited to:

The Hepatitis B virus (HBV)

Hepatitis C virus (HCV)

Human immunodeficiency virus (HIV)

Both Hepatitis B and C affect the liver and can cause illnesses that last a few weeks. However, 15% of Hep B and more than 50% of Hep C infections lead to potentially fatal conditions, such as cirrhosis or liver cancer. HIV attacks the body's immune

[Bomb Threat Procedures Online Training \[E\] \[2007\]](#)

Bomb Threat Procedures program is only a guide in knowing what to do if there is a bomb threat. Bombing and the threat of being bombed are harsh realities in today's world. The public is becoming more aware of those incidents of violence and the potential for destruction and physical harm. Law enforcement is charged with the responsibility of protecting life and property, but law enforcement alone will not do the job. It's up to each and everyone to do their part. Training and awareness will go a long way toward making your homes and workplaces safer and more secure environments.

[Breathe Safely: The Proper Use Of Respiratory Protection Interactive Online Training \[E\] \[2018\]](#)

Exposure to the gases, dusts, mists, and fumes of hazardous chemicals can cause lung damage, cancer, and other serious conditions of the respiratory and central nervous systems as well as other organs. Your organization has implemented a written respiratory protection program to protect workers from the adverse health effects of airborne contaminants while performing your job.

The purpose of this program is to provide employees with an understanding of the respiratory hazards they may encounter in their work areas and how to use the proper respiratory protection to prevent exposures to such hazards.

[Brian's Story: You Can Make A Difference Interactive Training \[E,S\] \[2008\]](#)

Jeff Bell received the phone call that every parent fears. His son Brian, a young man full of potential and promise, had been killed on the job. In this powerful presentation, Jeff Bell introduces his son Brian and takes the audience step by step through the events leading to his death.

[Bucket Safety Interactive Training Video \[E,S\]](#)

Bucket Truck Safety Bucket program focuses on safe operation of the bucket truck. The Bucket Truck is also known as aerial lift trucks have been used in just about every industry for many years. Not only are they effective, but they are also highly flexible in the numerous jobs they can safely perform. As useful as this equipment is, each type can contain its own inherent risks and hazards. The most common are falls and electrocution. Serious injuries and deaths have occurred in construction, mining, tree trimming, public works, and fire fighting to name a few.

[CAL OSHA New Laws On Serious Injuries Interactive Training \[E\] \[2011\]](#)

Federal OSHA has been critical of California due to being lax on "serious" violations associated with inspections and investigations. The Federal government wants California to significantly increase penalties especially those classified as serious. In order to address these concerns, California State Assembly Bill 2774 was adopted on January 1, 2011.

This program reviews the meaning of the new law AB2774, legal issues, mitigating serious hazards, and how employers can prepare for the changes.

[Cal/OSHA Preventing Hearing Loss Interacting Training \[E,S\]](#)

Hearing loss can have a devastating impact on our quality of life and the quality of life for our loved ones; however, controlling our exposure to high levels of noise can prevent the life-changing effects of hearing loss. This program provides an overview of California OSHA's Hearing Conservation Program Standard and explains how our hearing can be damaged by exposure to harmful noise. Viewers will also learn that hearing loss can be prevented by participating in the hearing conservation program and properly wearing hearing protection when required.

[California 1-Hour Sexual Harassment Course for Non-Supervisory Employees Interactive Online Training \[E,S\] \[2023\]](#)

This course fulfills SB1343 for non-supervisors in CA, covering 8 key topics in workplace harassment prevention.

[California 2-Hour Sexual Harassment Course for Supervisory Employees Interactive Online Training \[E,S\] \[2023\]](#)

Comprehensive training for California supervisors covering sexual harassment prevention, diversity, retaliation laws.

[California Sexual Harassment for Managers and Supervisors Interactive Training \(Online\) \[E\] \[2018\]](#)

Now more than ever, employers want to educate their workers regarding sexual harassment and how to prevent it in their workplace. In the State of California, managers are also required to provide training that now specifically addresses the rights of transgender individuals.

[Cell Phone Hands Free Driving Awareness Interactive Training \[E,S\] \[2020\]](#)

[Cell Phones In The Workplace: A Dangerous Distraction Interactive Training \[E,S\] \[2011\]](#)

Our cell phones are powerful tools that allow us to have instant access to information and communication. When used appropriately, these devices can make our lives easier and more enjoyable, but when used at the wrong time and in the wrong manner, these same devices can get us in trouble at work and cause serious injury.

[Chains, Cranes, Hoist, And Slings Interactive Training \[E\] \[2009\]](#)

Chains, Cranes, Hoist, and Slings program illustrates the proper use and maintenance of cranes and lifting devices with emphasis on safety. Safety around hoisting equipment is extremely important because one little mistake can be disastrous. Damaged or worn out parts also make your equipment unsafe to use. Daily inspection of equipment is necessary.

[Chainsaw Safety Interactive Training \[E\] \[2010\]](#)

The chainsaw ranks as one of the most dangerous tools found in the industry and home. The manufacturer provides safety and operating instructions on their equipment. This program includes safety tips and the hazards of this equipment. Most chainsaw accidents are a result of lack of proper training and unsafe acts by the operator. Safety in chainsaw operations is critical.

[Chemical Dependency and What To Do About It \[E\] \[2003\]](#)

This program focuses on the supervisor's responsibilities on handling chemical dependency employees. There are on-camera interviews by Theodore Holcombe, Service Director, Brad Davis, Narcotics Detective, Rolfe Floyd, VP of Operations, and Howard who is a drug user who share their experiences on this subject.

[Chemical Exposure Disaster Exercise Interactive Training \[E\] \[2008\]](#)

Chemical Exposure Disaster Exercise Details

Chemical Exposure Disaster Exercise program reviews a typical chemical exposure drill, giving typical medical staff and military personnel an idea of what to expect in case of a chemical exposure scenario.

[Chemical Hazards: Hazardous Materials Safety Interactive Online Training \[E,S\] \[2023\]](#)

This course introduces chemical hazard safety, awareness, preparedness, and safe handling in the workplace.

[Chemical Hygiene and Engineering Interactive Training Program \[E\] \[2009\]](#)

An integral part of your university's Laboratory Safety Program is the Chemical Hygiene Plan. This plan is designed to protect you from chemical and physical hazards present in your instructional and research laboratories. A component of this plan is engineering controls. Engineering controls eliminate or reduce exposure to chemical or physical hazards through the use or substitution of engineered machinery or equipment.

[Chemical Safety Online Training \[E\] \[2005\]](#)

Chemicals can improve our lives, if we do not understand them, they can be harmful. The information about a chemical is on the label. It is important to be informed and aware of chemicals and chemical safety. This program is designed to help the viewer understand more about chemicals and chemical safety.

[Chlorine Safety Interactive Online Training \[E\]](#)

[Choices: Safe Driving interactive Training \[E,S\] \[2014\]](#)

[Cleaning and Sanitizing In A Food/Pharmaceutical Processing Facility Interactive Training \[E\] \[2007\]](#)

Cleaning and Sanitizing in a Food/Pharmaceutical Processing Facility program will concentrate on cleaning and sanitizing of process equipment. It's extremely important to understand basic cleaning and sanitizing procedures and to use these procedures when cleaning equipment used in a food or pharmaceutical manufacturing process. Lack of proper sanitation can cause increased returns of products, shorter shelf life, less profit, and can invite the threat of possible operation shutdown.

Cleaning and Sanitizing in Food Processing and Handling Environments Part I: Cleaning Interactive Online Training [E] [2023]

Exposure to harmful microorganisms, such as bacteria, spores, fungi and viruses, can contaminate food products during the manufacturing process. And if customers eat this contaminated food, it can result in what are known as "foodborne illnesses". But if employees follow the proper cleaning procedures, it can help to eliminate these microorganisms.

Cleaning and Sanitizing in Food Processing and Handling Environments Part II: Sanitizing Interactive Online Training [E] [2023]

In food processing and handling facilities, it is vitally important to keep food products free from harmful microorganisms, such as bacteria, mold, spores and viruses. These can all contaminate food products... and potentially cause an outbreak of foodborne illnesses.

While "cleaning" is an important first step in protecting food products from contamination, "sanitizing" is what really rids surfaces and equipment of harmful microorganisms. And that is what makes food safe for customers to eat.

Combustible Dust Can Explode Interactive Online Training [E] [2011]

Combustible Dust Can Explode Details

Pneumatic conveying equipment and dust control exhaust systems that transport combustible particulate solids need to be protected from fire and dust explosions. If combustible particulate solids are thrown into the workplace air during cleaning or by excessive drafts in the plant, the resulting combustible dust can present a fire hazard if exposed to an ignition source. The program reviews the NFPA standards for combustible dust, problems and solutions.

Commercial Driver's License (CDL) for Drivers [E]

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), covers the regulations in part 383 of the Federal Motor Carrier Safety Regulations (FMCSR): Commercial Driver's License (CDL). This course outlines the minimum regulatory requirements for obtaining and maintaining a CDL. It focuses on information the driver needs to know to comply with the regulations.

Commercial Driver's License (CDL) for Management Online Course [E]

This course, developed in conjunction with the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), covers the regulations in part 383 of the Federal Motor Carrier Safety Regulations (FMCSR): Commercial Driver's License (CDL). This course outlines the minimum regulatory requirements for obtaining and maintaining a CDL.

Communication Skills: Conflict Resolution Interactive Online Training [E,S] [2024]

Conflict is caused by misunderstandings or differing opinions. Learn to manage and maintain a productive work environment.

Competent Person - Trenching and Shoring Interactive Online Training [E] [2012]

Competent Person - Trenching and Shoring Details

Based on the National Institute for Occupational Safety and Health (NIOSH), an average of 60 workers die in cave-ins annually. According to NIOSH, these events are not accidents; cave-ins are predictable and preventable. Fatalities are caused by an absence of trench protection, lack of knowledge and poor judgment. When working in trenches and excavation, there is no room for risk-taking. The lives of co-workers depend on the skill and knowledge of the competent person. This program focuses on the safety training of the competent person.

Compressed Air Safety - French Interactive Online Training [E]

Compressed Gas Cylinders - Handling and Storage Interactive Online Training [E] [2013]

Learn safe handling and storage practices for compressed gas.

Compressed Gas Cylinders Interactive Training [E,S] [2004]

Atlantic's Compressed Gas Cylinders video Program provides the information employees need to handle and transport these potentially volatile storage containers.

[Concrete and Masonry Construction Online Course \[E\]](#)

The Occupational Safety and Health Administration (OSHA) designs and enforces standards to assure a safe work environment for America's workers. Because workers involved in concrete and masonry construction face specific hazards, OSHA has developed standards to address and help minimize those hazards.

This course covers the OSHA regulations for employees involved in concrete and masonry construction.

[Confined Spaces: Acceptable Entry Conditions Interactive Online Training \[E,S\] \[2022\]](#)

Atlantic Training's "Confined Space Entry" training program provides employees with the information they need to stay safe in Permit Spaces and helps employers stay in compliance with OSHA requirements... whether they are doing general industry or construction type work.

[Connecticut 2-Hour Non-Supervisor Sexual Harassment Interactive Online Training \[E,S\] \[2020\]](#)

Comply with Connecticut's "Times Up" Act with our comprehensive sexual harassment training course.

[Connecticut 2-Hour Supervisor Sexual Harassment Interactive Online Training \[E\] \[2020\]](#)

Comply with Connecticut's "Times Up" Act with our interactive 2-hour sexual harassment training for supervisors.

[Construction Safety Orientation Interactive Training \[E\] \[2020\]](#)

Construction Safety...that's a very broad subject. This video covers a variety of topics and is designed as a basic overview of issues and hazards present on most construction sites. It is a great Orientation video for new employees or a refresher for experienced ones.

[Construction Safety: PPE Selection and Requirements Interactive Online Training \[E,S\] \[2023\]](#)

Learn how to select, use, and manage Personal Protective Equipment (PPE) in the construction industry.

[Construction Series Ladder Online Training \[E\] \[2016\]](#)

Each year, thousands of people are injured by falling off ladders. Never stand on a chair or other make shift step stool. Always use the proper device for the job.

[Countering Terrorism Interactive Online Training \[E\] \[2013\]](#)

Security officers must be alert to terrorist threats. If a terrorist incident occurs at a facility, security officers are likely to be first on the scene to observe the situation. They themselves could become victims of the attack.

[Countermeasures On Water Interactive Training \[E\] \[2002\]](#)

The program studies the factors that challenge responders to address water spills, including weather, wind, sea conditions, and currents.

[COVID-19 in Healthcare Environments \(OSHA's Emergency Temporary Standard\) Online Interactive Training \[E\] \[2021\]](#)

Although the Coronavirus surfaced in the U.S. in early 2020, it feels like we've been living with it forever, in our workplaces, homes and communities as well as in the media and on the internet. Millions of people in the U.S. have contracted the virus. Hundreds of thousands have died. And thousands of others are experiencing long-term health effects from the virus.

[COVID-19: Staying Safe at Work for Employees Interactive Online Training \[E\] \[2020\]](#)

[COVID-19: Staying Safe at Work for Employers Interactive Online Training \[E\] \[2020\]](#)

[CPR 2000 Online interactive Training \[E\] \[2005\]](#)

As a baby grows through childhood and adolescence, the healthy base provided as an embryo will become crucial to the process of good choices. We can help each generation to be healthier than the one before. A clear understanding of the risk factors associated with heart and brain attacks will determine a path to a healthier lifestyle. CPR has been credited with helping save lives. It is best to attend a credited CPR program presented by a recognized instructor. With the arrival of

Atlantic Training's general public in addition to safety training, we now offer a program that will be able to assist victims of a heart attack. This program covers CPR procedures for infants, children and adults.

Crane Safety (Construction) Online Course [E]

Cranes are very commonly used in the construction industry. Unfortunately, in addition to their usefulness, they can pose a significant hazard for workers if they are not used properly and inspection requirements are not followed.

In this course, you will learn crane safety requirements, including inspections, the use of suspended personnel platforms, the requirements for crane operators, and recognizing and avoiding common hazards.

Note: This course includes the regulatory changes that are effective November 8, 2010.

Crane Safety in Industrial and Construction Environments Training [E,S] [2019]

Atlantic's training products on "Crane Safety in Industrial and Construction Environments" review the hazards that are associated with working with cranes, discuss the federal regulations that address these hazards and discuss the policies and procedures that employees should follow to work safely with these machines.

Critical Incident Stress Debriefing (Emergency Preparedness) Interactive Training [E]

Critical Incident Stress Debriefing (Emergency Preparedness) Details

Workplace violence, disasters, terrorism, suicides, major accidents, and other incidents at work reveal the need for more information and action relating to CISD. This program will help you recognize the importance of having a program that provides debriefings, how to make best use of these services, when to call, and dealing more effectively with critical incidents when they occur.

Cryogenics and Compressed Gas Safety Interactive Training [E]

Cryogenics and compressed gas safety is a critical part of any university's safety program. Almost 200 different types of gases can be contained in gas cylinders. Cryogenic gases are liquefied gases that are kept in their liquid state at very low temperatures and high pressures.

Customer Service: Success Strategies Interactive Online Training [E,S] [2024]

This course will help you learn the importance of, the principles behind, and tips to executing good customer service.

Cybersecurity Protecting Your Digital Workspace Interactive Online Training [E,S] [2022]

In this training, you will learn about typical cyberthreats, reflect on the security of your own sensitive information, consider your status as a target, will learn about the steps of cyberattacks, and explore how everyone involved can better protect against cyberthreats.

Dealing with Allergens in Food Processing and Handling Environments Interactive Online Training [E] [2024]

Provide employees with vital information about how to prevent contamination in their facility, the regulations that are related to food-related health and how to work well together.

Delivery Truck/Van Safety Interactive Training [E,S] [2014]

Diabetes Prevention [E]

Diabetes is a major health problem in many countries, not only the United States. Many people don't know or understand diabetes and how it affects your health. We encourage the people who have been diagnosed as pre-diabetes and those with Type 2 diabetes to research the subject as it can be a serious health problem.

Discipline: Performance Standards Online Interactive Training [E]

Discrimination and Bias: Candid Conversations Interactive Online Training [E,S] [2023]

This course will help you define, identify, and learn the process to overcome discrimination and unconscious bias.

[Diversity in the Workplace: Candid Conversations Interactive Online Training \[E,S\] \[2022\]](#)

A fundamental hiring goal is to at least provide representation based on local demographics. Affirmative action principles recognize that this is not enough. Areas with very homogenous populations typically lack the benefits of a diverse workforce, and purposeful recruitment and advancement practices are required. In this training, we focus on four facets of diversity: race, gender, age, and disability. There are absolutely other ways in which humans are diverse – including how we self-identify. Starting with these areas instead sets the stage for fostering a diverse workplace

[Dog Bite Prevention \(Public Agency\) Online Interactive Training \[E\] \[2006\]](#)

Dog Bite Prevention (Public Agency) Details

For every letter carrier bitten by a dog, an estimated 900 children are victimized by the senseless pain and suffering of dog attacks. Dog bites result in approximately 44,000 facial injuries in the United States. Male patient injuries slightly outnumber females in most studies. This program covers dog behavior, prevention techniques and first aid. Also included are tips from Ron Berman, canine behavior expert.

[DOT Cargo Securement Interactive Online Training \[E,S\] \[2021\]](#)

[DOT Commercial Motor Vehicle Inspections Interactive Online Training \[E,S\] \[2022\]](#)

An estimated 15.5 million trucks operate on the roads in the United States. To help keep the roads safe for everyone who uses them, the Department of Transportation requires motor carriers to implement a program of regular inspection and maintenance for the trucks that they operate... whether they have a large fleet, or just a single truck. Commercial drivers play an important part in these programs, and the inspections they perform help to ensure that any problems with a vehicle are identified and repaired before they hit the road.

[DOT Drug and Alcohol Testing for CDL Drivers \[E\] \[2021\]](#)

Everyone knows that alcohol, drugs and driving don't mix. Yet drivers who are "under the influence" are still a major cause of accidents. To help ensure that drivers of commercial vehicles stay drug- and alcohol-free behind the wheel, the Federal Transportation Employee Testing Act requires motor carriers to establish rigorous drug and alcohol testing programs. Atlantic Training's new "Drug and Alcohol Testing for CDL Drivers" course discusses this requirement and how it affects transportation employees...and reviews the testing process itself, what happens if a driver tests positive for a substance and how to get help for a drug or alcohol problem.

"Drug and Alcohol Testing for CDL Drivers" uses a powerful combination of full-motion, high-definition video filmed in real workplace locations along with audio, text and colorful graphics to provide the most cost-effective training available today.

[DOT HAZMAT General Awareness Interactive Training \[E,S\] \[2018\]](#)

Atlantic's DOT HAZMAT General Awareness video Program focuses on employees who handle hazardous materials.

[DOT HAZMAT Safety Interactive Training \[E,S\] \[2018\]](#)

Atlantic's DOT HAZMAT Safety Training video Program focuses on employees who handle hazardous materials. The program makes employees aware of the hazards associated with the materials they handle... and shows them how to work with these materials safely.

[DOT HAZMAT Security Awareness for Drivers Interactive Online Training \[E\]](#)

This course, written for drivers of hazardous materials shipments, covers the new requirements designed to enhance the safety of hazardous materials, per the March 25, 2003, DOT final rule, "Hazardous Materials: Security Requirements for Offerors and Transporters of Hazardous Materials." This course can be used for either new employees or as refresher training.

[DOT HAZMAT Security Awareness Interactive Training \[E,S\] \[2018\]](#)

Atlantic's DOT HAZMAT Security Awareness video Program focuses on employees who handle hazardous materials and making them aware of the security risks associated with transporting hazardous materials.

[DOT Hours of Service Interactive Online Training \[E,S\] \[2021\]](#)

24 hours a day, seven days a week, trucks are rolling. The drivers of these rigs are also helping to drive the day-to-day commerce that powers our economy. So it's important that they not only have the knowledge, skill and commitment to help keep our roads safe, but that they are rested and alert whenever they are driving. So the Department of Transportation has established an "Hours of Service" regulation to ensure that drivers get the rest they need to drive safely. The course "DOT Hours of Service" discusses the Department of Transportation's "Hours of Service" regulations, what the regulations themselves require, and what drivers need to do to comply with them.

[DOT In-Depth HAZMAT Security Interactive Training \[E,S\] \[2018\]](#)

Atlantic's DOT HAZMAT In-Depth Security video Program focuses on employees who handle hazardous materials and making them aware of the risks associated with transporting hazardous materials, giving them a good understanding of what is addressed in their facility's HAZMAT Security Plan.

[DOT Reasonable Suspicion Testing for Managers and Supervisors: Part I Online Interactive Training \[E\] \[2022\]](#)

Everyone knows that alcohol, drugs and driving don't mix. Yet drivers who are "under the influence" are still a major cause of accidents. To help ensure that drivers of commercial vehicles as well as other transportation employees with "safety sensitive" jobs such as mechanics and warehouse workers stay drug- and alcohol-free, the Federal Transportation Employee Testing Act requires motor carriers to establish rigorous drug and alcohol testing programs. This two-part course has been created to satisfy the DOT's 2-Hour Reasonable Suspicion training requirements.

[DOT Reasonable Suspicion Testing for Managers and Supervisors: Part II Interactive Online Training \[E\] \[2022\]](#)

In Part I of this program on "Reasonable Suspicion", we discussed the responsibilities of managers and supervisors in making sure that drivers of commercial vehicles and other transportation employees with "safety sensitive" jobs are not under the influence of drugs while they are working. But drugs are not the only substances employees can use that impair their judgment and affect their ability to perform their job safely. Alcohol can be a serious problem as well. So it is important to know the "indicators" of alcohol consumption, and when to consider sending an employee for a "Reasonable Suspicion" test. This two-part course has been created to satisfy the DOT's 2-Hour ReasonableSuspicion training requirements.

[Driver Qualifications \(DQ\) for CMV Drivers \[E\]](#)

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), provides an overview of the Qualification of Drivers regulations with an emphasis on what the driver needs to know.

[Driver Qualifications \(DQ\) for CMV Drivers Online Course \[E\]](#)

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), provides an overview of the Qualification of Drivers regulations with an emphasis on what the driver needs to know.

[Driver Safety Training: Distracted Driving Dangers and Prevention Interactive Online Training \[E,S\] \[2023\]](#)

Safe driving isn't just about following the rules of the road. Take this training to help you identify any poor driving habits you should modify and strategies for improving your road focus. You might be surprised at some of the potential driver distractions we'll explore.

[Driver Training: Employee Safety Interactive Online Training \[E,S\] \[2023\]](#)

Have you ever followed behind a truck with a sign that says, "How am I driving?". That sign is a reminder that employees behind the wheel of a work vehicle will be held to a higher standard of driving safety than anyone else on the road. To them, you are the person responsible for the impression others have of the company: good or bad. If you're changing lanes quickly, driving aggressively, or speeding, then not only are you putting yourself at risk but opening your employer to risks that are avoidable.

[Driving Defensively for CDL/Large Vehicle Drivers: Handling Adverse Conditions Interactive Online Training \[E,S\] \[2021\]](#)

Driving defensively isn't just about your driving skills or your experience. It's about being aware of what is going on around you, anticipating what could happen and knowing what to do in any situation. Because trucks behave differently than other vehicles, truck drivers need to react differently when they encounter unusual or emergency situations. The course on "Driving Defensively for CDL/Large Vehicle Drivers: Handling Adverse Conditions" discusses how drivers can prepare for and drive defensively when encountering bad weather, work zones, distracted and aggressive drivers and more.

[Driving Defensively for CDL/Large Vehicle Drivers: The Basics Interactive Online Training \[E,S\] \[2021\]](#)

When you drive defensively, you're always "looking for trouble". Not that you want to cause any, but so you can "defend" yourself against other drivers and the trouble they can create. Whether they're speeding, tailgating, or just not paying attention to what they're doing, other drivers can put you at risk... but they're not the only problem. The course on "Driving Defensively for CDL/Large Vehicle Drivers: The Basics" discusses how truckers can not only prepare and defend themselves from other drivers, but from driving hazards such as low visibility, work zones and pedestrians as well.

[Driving In Extreme Weather Conditions Online Training \[E\] \[2008\]](#)

The information in this program will reinforce safety practices when you drive and work in extreme weather conditions. As you drive through challenging weather conditions, proceed slowly and cautiously.

[Dump Truck Safety Interactive Training \[E\] \[2008\]](#)

Dump trucks can carry and dump material, tow equipment and trailers, spread salt and sand on icy roads and apply asphalt on roads. There are a variety of makes and models of trucks; therefore it is important to review the truck's safety and maintenance requirements as outlined in the operator's manual. This program discusses maintenance and operation of typical dump trucks with emphasis on safety.

[Earthquake Safety Interactive Training \[E\] \[2008\]](#)

Earthquake Safety (Misc.) Details

Earthquake Safety program provides procedures to follow in the event of an earthquake that may save your life. Preparing for an earthquake is everyone's job. California and other parts of the country are subject to earthquakes and these earthquakes can occur any time of the year. This program answers the questions of what we should do when the windows start to rattle or the chandelier begins to swing slowly back and forth.

[Effective One-on-Ones for Managers: Strategies for Success Interactive Online Training \[E,S\] \[2023\]](#)

[Electric Pallet Jack Training Online Training \[E\] \[2009\]](#)

This program provides basic safety tips and maintenance procedures. A very important piece of equipment in the warehouse and material-handling areas is the electric pallet jack. It's an economical and versatile unit, designed to move stacks of materials from one place to another safely and without injury or product damage. Because it's easy to use and provides such durable service, it's natural to take them for granted, but they're basic safety rules and operating procedures required when using this type of equipment.

[Electrical Safety for Qualified Workers Interactive Training \[E,S\] \[2014\]](#)

Electricity is a powerful force that can cause serious injury and death. When it comes to electrical job tasks, it only takes an instant to turn a momentary mistake into a fatality. This is why qualified electrical workers must understand the hazards presented by exposed energized parts and know how to protect themselves through the use of safe electrical work practices. That's the purpose of this program--to explain the safety precautions these employees must always take to avoid needless tragedies while performing any type of electrical work.

[Electrical Safety in the Laboratory Interactive Training \[E\] \[2014\]](#)

Atlantic's Electrical Safety in the Laboratory video Program emphasizes the need for safety when using electricity, and discusses how to reduce the potential for accidents involving electrical shock, fire and explosions.

[Electrical Safety: Arc Flash Prevention Interactive Online Training \[E,S\] \[2024\]](#)

Master arc flash prevention and the implementation of safety measures in line with 2024 NFPA 70E standards.

[Electrocution Hazards in Construction Environments: Part II... Employer Responsibilities Interactive Training \[E,S\] \[2020\]](#)

While electrical energy does a lot of useful work on a job site, it can create serious hazards as well. Electricity kills more than a hundred construction workers each year and injures thousands more. They also suffer more than half of the electrical injuries that occur on the job. But these incidents could have been prevented.

[Electrocution Hazards Part I: Worksite Safety Interactive Training \[E,S\] \[2020\]](#)

Getting things done on a job site can require plenty of electrical energy, and it's easy to forget that electricity can cause painful shocks, burns... even "electrocution". Every year, it causes hundreds of deaths and thousands of injuries in the construction industry. But these incidents could have been prevented.

[Emergency First Aid \(Health Care\) Interactive Training \[E\] \[2009\]](#)

Emergency First Aid (Health Care) Details

Emergency First Aid program is designed to provide basic information on how to properly apply first aid in emergency situations. First Aid is the immediate care given to the injured or suddenly ill person. It's temporary assistance that is rendered until competent medical care, if required, arrives and takes over. Emergency First Aid means dealing with urgent conditions. This program has been designed to help provide basic information that will help you properly apply first aid that can save lives, reduce recovery time, and can possibly be the difference between temporary disability or lifelong disability for the victim.

[Employee Development: Avoid Being Overwhelmed Interactive Online Training \[E,S\] \[2023\]](#)

Learn how to implement strategies, discover a healthy work-life balance, and find the power to take charge of your own well-being.

[Employee Development: Time Management Interactive Online Training \[E,S\] \[2023\]](#)

Effective time management increases your focus and improves your productivity. This allows you to capture bigger opportunities and enjoy a harmonious work-life balance, spending more time on the projects, goals, and people that matter.

[Employee Productivity Interactive Online Training \[E\] \[2009\]](#)

Employee Productivity program is designed to provide solutions to employee productivity. It's been said that a company is only as good as its supervisors. Good supervision by a good supervisor. A good supervisor is the link between employees and upper level management, a role model, a leader, an evaluator, should also be flexible and fair. A supervisor should know workplace policies, coach employees, observe and document employee performances, troubleshoot, communicate.

[Employee Safety Orientation \(Supermarket\) Interactive Training \[E\] \[2008\]](#)

This program covers some basic safety rules that apply to all employees.

[Employee Training Responsibilities Interactive Online Training \[E\] \[2009\]](#)

Training and development are areas of concern to the supervisor and the company. The efficiency, safety, and even the morale of the employee depends on how well the supervisor trains his/her employees.

[Entry-Level CMV Driver Training Online Course \[E\]](#)

The Federal Motor Carrier Safety Administration, per 49 CFR Subpart E - Entry-Level Driver Training Requirements, requires all entry-level drivers who drive in interstate commerce and are subject to the commercial driver license (CDL) requirements of 49 CFR Part 383 to complete training addressing the following four areas: Driver qualification requirements, Hours of service of drivers, Driver wellness, and Whistleblower protection. This course covers all four topics for the new commercial motor vehicle (CMV) driver.

[Environmental Protection Agency \(EPA\) 1990 Clean Air Act Interactive Online Training \[E\] \[2006\]](#)

Environmental Protection Agency (EPA) 1990 Clean Air Act Details

The EPA's major problem is to solve oil spills, hazardous waste, and materials. The Clean Air Act is the comprehensive federal law that regulates air emissions from area, stationary, and mobile sources. This program explains the role of government, pollution, permits, and enforcement.

[Ergonomics \(Construction\) Online Course \[E\]](#)

Construction work is physically demanding. Workers often need to lift, stoop, bend, kneel, twist, stretch, and repeatedly perform other physically awkward tasks. Constantly pushing the body past its natural limits can lead to work-related musculoskeletal disorders. This is why ergonomics plays such an important role in preventing injuries on-the-job. This course explains the role ergonomics should play in maintaining safety at a construction work site. This includes identifying the types and causes of work-related musculoskeletal disorders and explaining the tools, equipment, and work practices employees can use to prevent them.

[Eye Protection: Hazards and Prevention Interactive Online Training \[E,S\] \[2024\]](#)

This course will help identify common eye hazards, explain required eye protection, and how to properly handle eye injuries.

[Fair Labor Standards Act: FLSA Compliance Interactive Online Training \[E,S\] \[2023\]](#)

Don't get tripped up by not knowing the terminology, labor standards, and implications of the Fair Labor Standards Act! Criminal prosecution for violations of the FLSA may result in fines and possible imprisonment. Ignorance is not a defense! Take this training and make sure to align your practices with compliance expectations.

[Fall Protection & Prevention: Jobsite Safety Interactive Online Training \[E,S\] \[2023\]](#)

Falls from height - and falling objects - present serious and life-threatening hazards for workers on many job sites. If your work involves any type of elevation, this training is for you!

[Fatigue and Its Effects for CMV Drivers Interactive Online Training \[E,S\] \[2023\]](#)

Atlantic Training's course on "Fatigue and Its Effects... for CMV Drivers" discusses the factors that contribute to fatigue, the dangers of driving while you're fatigued... and the Federal Motor Carrier Safety Administration "Hour of Service" regulations that address these issues.

[Fatigue Management: Fighting Fatigue in the Workplace Interactive Online Training \[E,S\] \[2024\]](#)

This training provides information on the hazards of workplace fatigue and strategies to combat it.

[Fire Extinguishers: How And When To Use Them - French Interactive Online Training \[E,S\]](#)

This program stresses to viewers the importance of making the right decisions when a workplace fire breaks out.

[Fire Extinguishers: Putting Out The Fire Interactive Online Training \[E,S\] \[2021\]](#)

Atlantic Training's products on "Using Fire Extinguishers" look at different types of fires, discuss how they should be put out, and explain how employees can use extinguishers effectively and safely if a fire emergency occurs.

[Fire Prevention in Healthcare Interactive Training \[E,S\] \[2017\]](#)

Every year more than a million fire emergencies are reported in the U.S., with over 5,000 of them taking place in healthcare facilities. They cause injuries, deaths and more than \$45 million in damage. Atlantic Training's "Fire Prevention in Healthcare Facilities" training products look at the fire hazards that can be encountered in healthcare environments, discuss how fires can be prevented, and explain what employees should do in case a fire emergency occurs in their workplace.

[Fire Safety \(Construction\) Online Course \[E\]](#)

This course teaches employees the OSHA standard for workplace safety regarding fire in the construction industry.

[Fire Safety and Emergency Preparedness \(General Industry\) Online Course \[E\]](#)

OSHA requires employers to provide a safe workplace, which includes preparing for all sorts of emergencies. Workplace emergencies can be natural or manmade. Either way, the biggest risk to workers often isn't the emergency itself, but injuries sustained when trying to escape because of panic, confusion, and lack of information. This course covers the OSHA standards for fire prevention and emergency preparedness.

[Fire Safety Training: Prevention and Response in Offices Interactive Online Training \[E,S\] \[2023\]](#)

Fire hazards can strike unexpectedly in any workplace, including office settings, posing a serious threat to both people and property. The consequences of a fire emergency can be catastrophic if not managed effectively. However, with a proactive understanding of fire safety and emergency response plans, you can prevent and respond to fire emergencies with confidence.

[First Aid: Construction Sites Interactive Online Training \[E,S\] \[2024\]](#)

This course dives into the fundamentals of first aid for injuries and illnesses common to construction sites.

[First Aid: Preparation and Response Interactive Online Training \[E,S\] \[2022\]](#)

This training will orient you to the major categories of risk and types of first-aid, give you an overview of the supplies and equipment involved – including guidance on preparing your own first-aid kit, will help you know what to do before choosing to administer first-aid, and walks you through some of the steps for performing first-aid for common injuries and illnesses. We will also explore what to do if you find yourself without a kit but needing to administer first-aid, the legal considerations involved in emergency care, and the next steps you can take to better prepare yourself and others to administer first-aid.

[First Aid: The Basics Interactive Online Training \[E,S\] \[2024\]](#)

This course covers the basics of applying first aid to address common workplace injuries and illnesses.

[Flammable Liquids Safety Streaming Interactive Online Training \[E\] \[2005\]](#)

[Flammables & Combustibles Online Interactive Training \[E\] \[2008\]](#)

[Flammables & Explosives in the Laboratory Interactive Training \[E\] \[2014\]](#)

Atlantic's Flammables and Explosives in the Laboratory video Program discusses the nature of flammable and explosive materials, as well as hazards associated with their use. It also reviews the proper handling procedures and personal protective equipment that should be used when working with these substances.

[FMCSR Motor Carrier Compliance General Applicability and Recordkeeping Online Course \[E\]](#)

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), outlines the circumstances under which an employer, employee or commercial motor vehicle is subject to the Federal Motor Carrier Safety Regulations.

[Food Handling Safety Interactive Online Training \[E,S\] \[2021\]](#)

The food supply in the United States is considered to be one of the safest in the world, yet according to the Centers for Disease Control, millions of Americans still come down with foodborne illnesses every year. Atlantic Training's "Food Handling Safety" course discusses the contamination hazards that are associated with food handling, and the materials, equipment and safe work practices employees should use to ensure that the foods they prepare won't make someone else sick.

[Food Service Safety and Sanitation \(Universities\) Online Training \[E\] \[2010\]](#)

When a food facility is given a satisfactory rating, it means on the day the health inspector visited, the establishment passed the requirements. It happens frequently that salmonella causes people to get sick. Food sanitation requires your attention if you work in the food industry or you cook at home. This program is designed to help reduce the risk of foodborne illnesses and other related diseases.

[Forklift Safety: Dynamics and Balance Interactive Online Training \[E,S\] \[2023\]](#)

Enhance forklift safety by mastering stability principles, optimal load distribution, and heightened situational awareness.

[Forklift: Certify and Comply Interactive Online Training \[E,S\] \[2018\]](#)

Forklifts or powered industrial trucks are commonly found in the industrial environment, as well as numerous other work settings. They are mainly used to move materials from one location to another and for loading and unloading products. Without proper training an employee is not authorized to operate these heavy machines.

[Forklifts: Pedestrian Safety Interactive Online Training \[E,S\] \[2023\]](#)

It's important for both forklift drivers and pedestrians to always remain aware of their surroundings. While pedestrians have the right of way, that doesn't mean ignoring posted signs, crossing into the pathway of moving forklifts, or becoming distracted with your cell phone while in a working area. There are safety measures that can be taken from both sides: driver and pedestrian.

The driver should maintain a low speed, announce directions at intersections or blind spots, and use a spotter for crowded zones or areas with heavy pedestrian traffic. To support the driver's safety measures, pedestrians must do their part. Pedestrians should give forklifts room to operate, stick to marked walkways when possible, and respect the safety guidelines of the forklift. Do not ask for rides on the sides or forks, and never pass beneath a load.

[Front End Loader Safety Online Training \[E,S\] \[2009\]](#)

Front-End Loader Safety program will concentrate on the basic safe operations for the standard front-end loader. As an operator, you are a skilled professional who is responsible for an expensive piece of equipment, as well as the safety of those around you. You should not operate the front-end loader unless you have been fully trained and authorized by your organization.

[Gas Welding Safety Interactive Online Training \[E\] \[2005\]](#)

Remain safe on the job.

[General Safety: Safe Driving Basics Interactive Online Training \[E,S\] \[2023\]](#)

Drive with confidence, caution, and care. Learn practical guidelines to ensure your well-being and create safer roads for all.

[Good Manufacturing Practices in the Food Industry: Part I Interactive Online Training \[E,S\] \[2022\]](#)

Atlantic Training's course on "Good Manufacturing Practices in the Food Industry: Part I" contains valuable information about how employees can help their facility meet the criteria set by the first three sections of the FDA's GMP regulation... addressing Personnel, Plant and Grounds and Sanitary Operations.

[Good Manufacturing Practices in the Food Industry: Part II Interactive Online Training \[E,S\] \[2022\]](#)

Atlantic Training's course "Good Manufacturing Practices in the Food Industry: Part II" contains valuable information about how employees can help their facility meet the criteria set by the last four sections of the FDA's GMP regulation... addressing Sanitary Facilities and Controls, Equipment and Utensils, Manufacturing Processing and Controls, and Warehousing and Distribution.

[Ground Fault Circuit Interrupter \(GFCI\) Online Training \[E\] \[2008\]](#)

Insulation and grounding are two recognized means of preventing injury during electrical equipment operation. Grounding may be achieved through the use of direct connection to a known ground such as a metal cold water pipe. Electrical safety is much more than plugging your equipment into a receptacle and beginning work. This program focuses on the safe use of GFCIs.

[HACCP in the Food Industry Interactive Online Training \[E,S\] \[2021\]](#)

Atlantic Training's "HACCP Hazard Analysis and Critical Control Points in the Food Industry" training program discusses the most widely used international food safety program, the Hazard Analysis and Critical Control Points system which ensures that the food reaching consumers is safe enough to eat.

[Hand and Power Tools \(Construction\) Online Course \[E\]](#)

Hand tools play a big role in construction work. Because they are used so commonly, it is easy to forget how dangerous they can be when used incorrectly or maintained improperly. This course explains the importance of safely using and maintaining hand and power tools and identifies common hazards and how to avoid them.

[Hand and Power Tools: Best Practices Interactive Online Training \[E,S\] \[2024\]](#)

This training will help identify common safety concerns associated with the use of hand and power tools and how to mitigate these issues.

[Hand, Wrist & Finger Safety in Construction Environments Interactive Training \[E,S\] \[2018\]](#)

Atlantic's training products on "Hand, Wrist and Finger Safety in Construction Environments" review the hand, wrist and finger hazards that employees may encounter on a job site, and show them the equipment and safe work practices they can use to prevent injuries.

[Hand, Wrist & Finger Safety Interactive Training \[E,S\] \[2018\]](#)

Atlantic's Hand, Wrist and Finger Safety video Program reviews hand, wrist and finger hazards and helps employees to take the steps necessary to avoid them.

[Handling Compressed Gas Cylinders in the Laboratory Interactive Training \[E\] \[2014\]](#)

Atlantic's Handling Compressed Gas Cylinders in the Laboratory video Program examines how gas cylinders work, the hazards that are associated with them and the need for caution when using or storing a cylinder.

[Handling Compressed Gas Safely \(Public Agency\) \[E\] \[2014\]](#)

The program covers the various types of gas that are contained in gas cylinders. Safe handling procedures and use of compressed gas are discussed. Gas cylinder sizes can range from a small table top cylinder to one ton cylinders. Anyone working with or handling compressed gas containers must be properly trained. This program focuses on the safe procedures in handling of compressed gas cylinders.

[Handling Emergencies Interactive Online Training \[E\] \[2013\]](#)

Handling Emergencies training video teaches professional security officers how to respond to incidents, including workplace violence, in the facilities that they protect. They must take control, activate agreed upon emergency procedures and take steps to prevent further harm.

[Hazard Communication: Container Labeling, Transportation, and Storage Interactive Online Training \[E,S\] \[2023\]](#)

This course introduces the nine hazard classes and explains regulations for transporting and storing large quantities of hazardous materials.

[Hazard Communication: GHS Labeling Requirements Interactive Online Training \[E,S\] \[2023\]](#)

Learn to read and interpret GHS labels, understand labeling requirements, and ensure safe chemical handling in the workplace.

[Hazard Communication: GHS Safety Data Sheets Interactive Online Training \[E,S\] \[2023\]](#)

This course covers the Globally Harmonized System (GHS) Safety Data Sheets (SDS) and their importance in communicating the hazards of chemicals in the workplace. Participants will learn how to read and understand the 16 sections of an SDS, including the 9 standard hazard pictograms used and their meanings.

[Hazard Identification: Recognizing Hazards Interactive Online Training \[E,S\] \[2023\]](#)

This course will help you recognize common workplace hazards and explain procedures followed to prevent and report incidents.

Hazardous Materials: Hazard Communication and Spill Containment Interactive Online Training [E,S] [2023]

It is critical that you remain informed and aware of any hazardous materials being used. Each type has specific risks, PPE requirements, containment, and decontamination processes. Having these requirements communicated proactively will allow you to stay informed and understand your role in both handling the material daily and what to do in case of an emergency.

This training will break down
Hazard communication basics
Hazardous materials safety training
and spill containment.

Hazardous Waste Generators LQG Interactive Online Training [E] [2014]

Become competent in large quantity generation hazwaste identification, generation, preparedness, and related processes.

Hazardous Waste Generators SQG Interactive Online Training [E] [2014]

Become competent in small quantity generation hazwaste identification, generation, preparedness, and related processes.

HAZCOM: In The Know Interactive Online Training [E] [2018]

Hazardous chemicals are found in more than 7 million workplaces and are regularly present in many different industries. Exposure to chemical hazards can cause detrimental health effects on employees when they aren't properly protected. It's required that employer's develop and implement a Hazard Communication Program.

HAZWOPER: Accidental Release Measures & Spill Cleanup Procedures Interactive Training [E,S] [2014]

Atlantic's Accidental Release Measures and Spill Cleanup Procedures HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees understand the plans and procedures necessary to safely contain and cleanup a hazardous materials spill.

HAZWOPER: Dealing With The Media In Emergency Situations Interactive Training [E,S] [2004]

Atlantic's Dealing With the Media in Emergency Situations HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and instructs employees on the proper ways of interacting with the media during an emergency situation.

HAZWOPER: Decontamination Procedures Interactive Training [E,S] [2004]

Atlantic's Decontamination Procedures HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and instructs employees on the how to remove contaminants that accumulate on clothing and equipment.

HAZWOPER: Electrical Safety in HAZMAT Environments Interactive Training [E,S] [2014]

Atlantic's Electrical Safety in HAZMAT Environments HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees understand the hazards of uncontrolled energy in hazardous materials environments, and how to reduce or eliminate these potential hazards.

HAZWOPER: Exposure Monitoring & Medical Surveillance Interactive Training [E,S] [2004]

Atlantic's Exposure Monitoring and Medical Surveillance HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and discusses various types of exposure monitoring equipment and techniques. The program also explains medical surveillance and how it is used to evaluate the health of anyone who regularly works around hazardous materials.

HAZWOPER: Fire Prevention Interactive Training [E,S] [2014]

Atlantic's Fire Prevention HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees understand the hazards of fire when combined with hazardous materials.

HAZWOPER: Handling Hazardous Materials Interactive Training [E,S] [2014]

Atlantic's Handling Hazardous Materials HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and instructs employees on how to work safely with the chemicals that they encounter in their jobs.

HAZWOPER: HAZMAT Labeling Interactive Training [E,S] [2004]

Atlantic's HAZMAT Labeling HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and instructs employees who deal with hazardous materials that they can reduce the risk of accidental exposure by using the correct labels and placards on each chemical container.

HAZWOPER: Heat Stress Interactive Training [E,S] [2014]

Atlantic's Heat Stress HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees understand the need to guard against heat-related illnesses and what steps they can take to protect themselves in their work environments.

HAZWOPER: Introduction to HAZWOPER Retraining Interactive Training [E,S] [2014]

Atlantic's Introduction to HAZWOPER Retraining HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and reminds employees who deal with hazardous materials of the importance of identifying, evaluating and controlling chemical hazards.

HAZWOPER: Medical Surveillance Program Interactive Training [E,S] [2004]

Atlantic's Medical Surveillance Program HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and discusses various types of medical surveillance and how it is used to evaluate the health of anyone who regularly works around hazardous materials.

HAZWOPER: Monitoring Procedures & Equipment Interactive Training [E,S] [2004]

Atlantic's Monitoring Procedures and Equipment HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and discusses the importance of detecting hazardous materials, as well as the equipment and procedures used in the process.

HAZWOPER: NFPA HazMat Labeling Information Interactive Training [E] [2009]

The National Fire Protection Association (N.F.P.A.) system is used for identifying hazardous material containers. The N.F.P.A. method of labeling is designed to aid firefighters. It allows them to quickly identify hazards. This program explains the coding of the N.F.P.A. system.

HAZWOPER: Personal Protective Equipment & Decontamination Procedures Interactive Training [E,S] [2014]

Atlantic's Personal Protective Equipment and Decontamination Procedures HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and instructs employees on the appropriate use of personal protective equipment (such as chemical protective clothing) as well as how to remove contaminants that accumulate on clothing and equipment.

HAZWOPER: Personal Protective Equipment Interactive Training [E,S] [2004]

Atlantic's Personal Protective Equipment HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps instruct employees on the selection and use of personal protective equipment (such as chemical protective clothing and respirators) in environments where hazardous materials are present.

HAZWOPER: Respiratory Protection Interactive Training [E,S] [2014]

Atlantic's Respiratory Protection HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees avoid exposure to hazardous materials. The program instructs employees who deal with hazardous materials about how to protect themselves from respiratory hazards.

[HAZWOPER: Safety Orientation Interactive Training \[E,S\] \[2014\]](#)

Atlantic's Safety Orientation HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees avoid exposure to hazardous materials. The program instructs employees about how to reduce or eliminate potential exposure to hazardous materials in their work environments.

[HAZWOPER: Site Safety & Health Plan Interactive Training \[E,S\] \[2014\]](#)

Atlantic's The Site Safety and Health Plan HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees avoid exposure to hazardous materials. The program summarizes the various aspects of the Plan which is used in a hazardous materials facility or operation, and how the Plan helps to protect the health of anyone who regularly works around hazardous materials.

[HAZWOPER: Understanding HAZWOPER Interactive Training \[E,S\] \[2014\]](#)

Atlantic's Understanding HAZWOPER HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), explains the regulations, and helps employees reduce or eliminate potential exposure to hazardous materials in their work environments.

[HAZWOPER: Work Practices and Engineering Controls Interactive Training \[E,S\] \[2014\]](#)

Atlantic's Work Practices and Engineering Controls HAZWOPER video Program assists facilities in complying with the employee training requirements of OSHA's HAZWOPER regulation (29 CFR 1910.120), and helps employees understand the nature and the behavior of hazardous chemicals, and reduce or eliminate potential exposure to hazardous materials in their work environments.

[Hearing Protection: Noise Safety and Loss Prevention Interactive Online Training \[E,S\] \[2023\]](#)

When exposed to loud or constant noise, you'll begin to damage the hair cells in your cochlea. This damage means that sound can't be transmitted effectively to your brain, and you develop hearing loss. While this is pretty technical information, it helps to understand what you are protecting.

[Heat Stress \(Humorous\) Interactive Online Training \[E\]](#)

Being uncomfortable is not the only problem when working in high temperatures and high humidity. Human beings are warm blooded meaning regardless of external conditions, our body maintains a fairly constant temperature.

[Heat Stress: Employee Safety in Construction Interactive Online Training \[E,S\] \[2023\]](#)

In this training designed for construction workers, you will identify common risk factors of environmental heat and bodily overheating, learn the main dangers of heat exposure, and will explore safe work practices. Staying safe during hot, humid, or physically demanding tasks first involves recognizing potential hazards, unique physiological considerations, and workplace conditions.

[Heat Stress: Employee Safety Interactive Online Training \[E,S\] \[2023\]](#)

According to occupational injury data from the Bureau of Labor Statistics, dozens of workers die every year from heat exposure. Thousands more report sickness due to working in hot or humid environments. Heat hazards are present across many industries. Although most prevalent in the transportation, manufacturing, protective services, installation and repair, construction, and maintenance industries, risk of exposure to high temperatures can be identified in practically all occupations.

[Heat Stress: Facts & Prevention Interactive Training \[E,S\] \[2017\]](#)

[Heavy Equipment \(Construction\) Online Course \[E\]](#)

As a construction worker, you may encounter heavy equipment at the worksite. You may even operate heavy equipment. The equipment can save a lot of time, but it also introduces many hazards; this type of equipment can cause injuries, and

By following the safety rules for working with or near heavy equipment, you can avoid injuries. You will learn how to recognize and use the appropriate signals, and barriers, and the importance of roll-over protective structures. You

[Hexavalent Chromium Employee Online Interactive Training \[E,S\]](#)

Hexavalent chromium is essential to a number of industrial applications: chromate pigments are used in dyes, ink and plastics, chromic acid is used in chrome plating and chromates are used to prevent corrosion in paints and other coatings. While these compounds can be very beneficial, they can also be harmful or lethal to those employees exposed to them. This program discusses the safe work practices these workers must follow to avoid exposures to this hazardous substance.

[High Blood Pressure Online Interactive Training \[E\]](#)

Blood pressure is the force of blood against your artery walls as it circulates through your body after being pumped by the heart. Blood pressure normally rises and falls throughout the day, but can cause health problems if it remains high for a long time. High blood pressure can lead to many health issues, including heart disease and stroke which are leading causes of death in the United States.

Most of the time, the effects of high blood pressure are "silent" meaning you may feel no symptoms. That's why people can have high blood pressure and not even know it. In fact, it's a common health problem as 1 in 3 Americans have high blood pressure.

[HIPAA: Protections and Compliance Interactive Online Training \[E,S\] \[2022\]](#)

To get quality healthcare, people should not have to sacrifice the privacy or security of their personal health information. The set of regulations known as "HIPAA" ensures that private patient data remains private, but the laws can seem complex, and the penalties for non-compliance can be costly.

[Hospitality Customer Service Online Training \[E\] \[2009\]](#)

As an associate, you are the key to the company's success. Each associate makes a difference, no matter what part of the facility you work. Treating customers with respect is expected. This program discusses the general accepted customer service standards.

[Hot Work Safety and the Permitting Process Online Interactive Training \[E,S\] \[2017\]](#)

"Hot work" includes any tasks that involve flame or high heat, or can act as an ignition source. One in five industrial fires are caused by hot work and it can create major problems on construction sites as well. Hot work accidents result in more than \$300 million in property damage and more than 30 fatalities per year, but these incidents are preventable. Atlantic Training's "Hot Work Safety and the Permitting Process" training products discuss the hazards that can be encountered in hot work and focus on how employees can use the permitting process and other safe practices to perform these tasks more safely.

[How To Communicate Effectively, Team Building, Getting Control of Your Time \[E\]](#)

[How To Fit Test Respirators Online Training \[E\] \[2008\]](#)

There are a variety of gases, fumes, vapors, dusts, mists, and other potentially hazardous materials in many industries. Protection from health hazards is a goal of all employers and employees. This program will look at respiratory protection and how you can protect your health against hazardous materials.

[Hydrogen Sulfide Employee Training Interactive Online Training \[E\] \[2010\]](#)

Employees can work safely in areas where the potential of hydrogen sulfide exists by following their organization's Hydrogen Sulfide Contingency Plan, knowing how and when to use respiratory protection and knowing the meaning of their facility's hydrogen sulfide warning sounds and signals. This program reviews these three key issues and many other precautions that protect employees from H2S exposures when followed.

[Hydrogen Sulfide Employee Training Interactive Training \[E,S\]](#)

This program reviews these three key issues and many other precautions that protect employees from H2S exposures when followed.

[Hydrogen Sulfide Safety by Efilm Interactive Training \[E\] \[2005\]](#)

Valuable training for petroleum and other industrial personnel who may encounter hydrogen sulfide in their work, as well as for emergency responders.

Hydrogen Sulfide Training Online Training [E] [2001]

Hydrogen Sulfide (H₂S) is a by-product formed by decaying organic matter. It can be found in oil or gas operations, mining facilities, sewage, wastewater treatment plants, landfills and public utilities. (H₂S) is invisible, explosive, flammable and deadly. It is the leading cause of death in the workplace. Employers are required to follow safety standards such as air monitoring and providing engineering controls in the workplace. This program defines (H₂S) and the risk of exposure with emphasis on safety.

I Can't Get No Traction Interactive Training [E]

This four-minute, upbeat music video spotlights common slip, trip and fall hazards in unique and entertaining fashion. Inspired by the Rolling Stones tune, "Satisfaction," the custom lyrics to this music video provide a warning to those workers who move about the workplace in an unsafe manner. The program features a variety of realistic slip, trip and fall stunts that teach memorable lessons on distracted walking, running, poor housekeeping, improper ladder use, spills, moving equipment and wearing improper footwear.

I Chose to Look the Other Way: Three Stories of Workplace Safety Interactive Training [E,S] [2014]

In this dramatic telling of the popular "I Chose To Look The Other Way," viewers will witness examples of three common scenarios of workers not speaking up about safety. The storylines feature a failure to follow lockout/tagout, an employee neglecting to wear PPE and a worker choosing not to wear fall protection as the primary causes of incidents that result in fatalities; however, your employees will learn that the root cause of each was a reluctance to speak up. They will be convinced that speaking up about unsafe acts is critical in the prevention of workplace injuries. Some of the other safety concerns addressed in the program include supervisors, rushing, habits, shift work, and intimidation.

Incident Investigation: Root Cause to Corrective Action Interactive Online Training [E,S] [2023]

OSHA stresses the importance of reporting and investigating incidents that cause injury or illness on your job sites. An incident is an occurrence during work that resulted in injury, illness, or property damage. The purpose of an incident investigation is to uncover the root cause of the occurrence and assign corrective actions so that your employees feel safe at work. This is not about assigning blame.

The investigation and tracking of incidents allow your company to understand safety risks and proactively use training or interventions to prevent future incidents. In this program, we will dig more into the proactive ways to address incidents.

Indoor Air Quality Interactive Training Course [E,S] [2017]

Atlantic's Indoor Air Quality video Program shows employees the potentially harmful effects of poor air quality, and will help them prevent, identify and correct air quality problems.

Industrial Cranes & Rigging: Safety is in Your Hands Interactive Training [E,S] [2013]

Industrial Ergonomics: Workplace Design and Safety Interactive Online Training [E,S] [2023]

Industrial Fire Safety Training: Prevention and Response Interactive Online Training [E,S] [2023]

Industrial environments present unique fire safety challenges. This course on industrial fire safety training, prevention, and response is designed to equip you and your colleagues with the knowledge and tools needed to navigate these challenges with confidence. This training is an invaluable resource for individuals working in industrial settings as well as those responsible for maintaining workplace safety.

Infection Control in Healthcare Environments for Medical Personnel Interactive Online Training [E] [2024]

The first step towards reducing these injuries is to educate medical personnel about how to identify, prevent and protect themselves from the hazards that can be found in a healthcare environment.

Infectious Disease: Control and Prevention Interactive Online Training [E,S] [2023]

This course introduces what causes infectious disease and the methods used to control and prevent them from spreading.

Injury Prevention for CDL Drivers Interactive Online Training [E,S] [2022]

Almost every day you see images in the news of a horrific accident on the highway, many of them involving large trucks.

[Insider Trading: It's Not Worth the Risk Interactive Online Training \[E\] \[2015\]](#)

Unlock the secrets of insider trading with this course. Learn its definition, consequences, and how to stay compliant.

[Introduction to Industrial Hygiene Interactive Online Training \[E,S\] \[2021\]](#)

Industrial hygiene has been defined as "The science and art devoted to the anticipation, recognition, evaluation and control of those environmental factors or stresses arising in or from the workplace, which may cause sickness, impaired health and well-being or significant discomfort among workers or the citizens of the community." Quite a mouthful. So what does that all mean? And what does an Industrial Hygienist actually do?

[Introduction to OSHA: General Industry and Construction Interactive Online Training \[E,S\] \[2024\]](#)

This training will provide an introduction to OSHA's mission, standards, and covered rights and responsibilities.

[Janitorial Safety Interactive Training \[E,S\] \[2015\]](#)

[Job Safety Analysis Online Interactive Safety Training \[E\] \[2006\]](#)

Job Safety Analysis "Find It Before It Finds You" program provides the steps to be taken when performing a JSA. There are many tools which organizations use to help reduce and eliminate accidents and injuries. One of the more important tools is what we call the job safety analysis. It's been around for a long, long time. JSA or Job Safety Analysis is just fancy words for finding out potential job hazards and unsafe procedures so we can reduce accidents. In recent years, job hazard analysis has crept into the safety vocabulary as OSHA requires hazard assessments in many of their standards.

[Job Safety Analysis, Safety Awareness & You Interactive Training \[E,S\] \[2013\]](#)

While there are countless methods used to protect workers from injury, each method shares a common root. The genesis of all injury prevention methods is an understanding and awareness of the hazards to which a worker may be exposed. In other words, the company and the worker must be aware of a hazard before that hazard can be controlled. This program discusses the important roles played by both management and employees in recognizing and controlling workplace hazards and how this shared duty of safety awareness and hazard recognition helps prevent injury.

[Jobsite Housekeeping: Workplace Safety Interactive Online Training \[E,S\] \[2023\]](#)

In today's fast-paced work environment, it's easy to overlook the importance of job site housekeeping and its critical role in ensuring a positive, productive, and safe work environment. This workplace safety training course on job site housekeeping offers essential insights and practical strategies to create a culture of safety and cleanliness, empowering participants to contribute to a safer and more efficient workplace.

[Just A Second Ago: The Brad Livingston Story Interactive Training \[E,S\] \[2009\]](#)

When Brad Livingston decided to violate procedures, participate in a shortcut and condone the unsafe actions of a co-worker, his world was literally blown apart in a matter of seconds. As Brad was engulfed in flames, he fully expected to die, but thoughts of his three young daughters inspired him to fight for his life.

[Killer Bees, Wasps, and Spiders Interactive Online Training \[E,S\]](#)

Killer Bees, Wasps, and Spiders program includes on-camera interviews with Dennis Johnson, Bee Expert, Brent Batchelor, Bexar County Extension Agent, and Dr. Robert C. Rosenberg who share their expertise on this subject. Killer Bees, Wasps, and Spiders is the title of the program, but it's more than that. It's information and the proper protection to make sure you're prepared for an encounter with bees, wasps, and spiders. The most important fact to take with you today is not to panic when you're faced with a potential bite or sting. There's no need to panic because death rarely happens and armed with factual information, the chances are even less likely a death or serious injury will occur. To help reduce the risk of bees, wasps and spiders bites or stings, this program will provide a better understanding and prevention techniques when you are faced with a potential bite.

[Knife Safety In The Workplace Online Interactive Training \[E,S\]](#)

While the blade of a knife may be sharp, it's not very bright. It cannot tell the difference between cutting work material or slicing a hand in five. The sharpness and design make them dangerous weapons, leaving their users on a fast track to injury. Industrial knives. This program discusses common industrial knife safety rules and explains why a deep cut or laceration to a worker's hand can be so damaging.

[Laboratory Ergonomics Interactive Training \[E\] \[2014\]](#)

Atlantic's Laboratory Ergonomics video Program discusses the need to set up work areas correctly, as well as how to minimize the strain of using laboratory equipment, tools and instruments.

[Laboratory Hoods Interactive Training \[E\] \[2014\]](#)

Atlantic's Laboratory Hoods video Program emphasizes how to properly use laboratory hoods and how to test them to ensure correct functioning... as well as discusses how hoods can protect an experiment, the facility, and most importantly, the employee.

[Ladder Safety in Construction Environments Interactive Training \[E,S\] \[2019\]](#)

Atlantic's Ladder Safety in Construction Environments video Program shows that because they are so common, many employees take ladders for granted, and don't take the appropriate precautions when using ladders.

[Landscape Maintenance Safety \(Public Agency\) Interactive Online Training \[E\] \[2006\]](#)

Landscape Maintenance Safety (Public Agency) Details

Landscape workers have a lot of responsibility maintaining parks, highways and other areas that provide enjoyment for a large number of people. They are also responsible for fire safety in these areas. The equipment, chemicals and techniques used can be hazardous. This program focuses on safety awareness in landscape maintenance.

[Lead Exposure in General Industry Interactive Training \[E,S\] \[2016\]](#)

Lead is poisonous. If it's taken into the body, it can cause serious health problems and even be fatal. Most people who are exposed to lead today are exposed on the job. OSHA estimates that more than 800,000 U.S. workers work around lead regularly. Employees can be exposed to lead while sanding and stripping lead-based paint, welding or cutting painted metal, repairing and servicing automobile brakes, manufacturing ceramics or electronics, smelting or casting metals and performing numerous other tasks. Atlantic's Lead Exposure in General Industry training products provide employees with the information they need to understand lead hazards and the safety regulations that address them. The program also explains how to recognize lead hazards in the workplace and handle them safely.

[Lead Exposure: Prevention and Response Interactive Online Training \[E,S\] \[2024\]](#)

This course will help you to identify sources of lead, who's most at risk, and the regulations in place to protect you.

[Leadership Development: New Supervisor Interactive Online Training \[E,S\] \[2022\]](#)

So here you are a leader. You may be an aspiring, newly hired, or transitioning supervisor. This training is meant to help you get started on the right foot. This training helps you develop your leadership style and learn to adapt to the unique personalities and expectations of your team members. You will also learn about communication and the weight your decisions carry. This training emphasizes staying informed and involved to move your team forward while nurturing a positive workplace culture.

[Lifting Patients From Chairs Interactive Online Training \[E\] \[2007\]](#)

Lifting Patients From Chairs Details

Each patient and situation for moving a patient is unique. You may have to move a patient from a bed to a wheelchair or from a wheelchair to a bathtub. Each task is different and each one has a specific way in which it can be done safely and correctly. This video shows how to lift a patient using safe techniques.

[Loading Docks: Safe Work Practices Streaming Interactive Online Training \[E,S\] \[2023\]](#)

Loading docks are a high-risk area and should have unique solutions to ensure the safety of all personnel. This includes delivery drivers, material and product handlers, equipment operators, and any other person who enters or crosses the area. From preventing falls or back injuries through safe work practices to installing protection barriers, safety directors and supervisors should take preventative measures to ensure their loading docks meet OSHA standards. Ensuring safe practices, such as using wheel chocks and locking systems, can prevent serious, and even fatal accidents. This way,

[LockOut Tagout for Employees - Canada Interactive Online Training \[E\]](#)

Being around energy is an every day part of our lives, and an important part of our workplace operations. High pressure steam, electricity, hydraulic and pneumatic systems, even the force of gravity are common forms of energy used to power our machines and processes. While energy is obviously useful, it can also be dangerous. Understanding how to properly control hazardous energy is one of the keys to workplace safety.

[Lockout Tagout: Secure Safely Interactive Online Training \[E,S\] \[2018\]](#)

Employers are required to have an energy-control plan implemented for all machines, which involves a lockout/tagout program. Atlantic Training's premier safety training program on Lockout/Tagout covers all the critical aspects relative to lockout/tagout and the proper implementation of an effective hazardous energy control plan.

[Machine Guarding: Safe Work Practices Interactive Online Training \[E,S\] \[2022\]](#)

Throughout this training, you will be asked to relate safety and machine guarding techniques to your own work environment.

[Making Safety Work: Overview of Workplace Safety & Responsibilities Online Training \[E,S\] \[2013\]](#)

This program provides an overview of common workplace hazards and how they are to be controlled while also demonstrating the importance of each employee's commitment and participation in the safety effort. Viewers will also see how easily injuries can occur when employees decide not to take responsibility for their safety.

[Managing Safety and Health Online Course \[E\]](#)

All levels of an organization, from the top management team through the entire organization of the work force, should actively participate in their Safety and Health Program. The priorities in a good Safety and Health culture include positive attitudes, safe behaviors, accountability, and continuous improvement. The resulting benefits of this type of safety culture can be seen in fewer risky behaviors, reduced numbers of accidents and incidents, better protection for employees' health and safety, and an improved financial bottom-line.

[Manual Pallet Jack Safety Online Training \[E,S\] \[2019\]](#)

A manual pallet jack allows a single worker to move a palletized load around a workplace easily and efficiently by "muscle power" alone. But as with all material handling equipment, when a pallet jack is misused it can create serious workplace hazards, cause severe injuries and even result in fatalities.

[Mark Standifer's Electrical Safety Briefing Interactive Online Training \[E,S\]](#)

As a survivor of an arc flash incident, Mark knows the pain and suffering associated with electrical and arc flash injuries. In this live presentation, he stresses the importance of thinking about what we are doing and being aware of all shock and burn hazards when performing electrical job tasks. Mark also makes the point that we must always wear the PPE and FR rated clothing required by the NFPA 70E to protect ourselves from any mistakes that we may make.

[Material Handling Safety Training: Moving and Storage Interactive Online Training \[E,S\] \[2023\]](#)

Do you want to learn how to handle materials safely like a pro? Then this training is for you. This course is a total game-changer for anyone involved in moving and storing materials. So let's get this handled!

[Material Handling: Proper Lifting Techniques Interactive Online Training \[E,S\] \[2023\]](#)

Master safe lifting techniques to prevent back injuries, including planning, executing lifts, and responding to incidents.

[Mental Health: Awareness and Support Interactive Online Training \[E,S\] \[2023\]](#)

Learn how to prioritize mental health in the workplace by building supportive cultures and enhancing emotional well-being.

[Mobile Elevating Work Platforms: Safe Use and Requirements Online Interactive Training \[E\] \[2020\]](#)

This program reviews the important changes in the new standards and discusses the basic safe work practices platform operators must follow to prevent accidents and injuries.

Motorized Pallet Truck Safety Online Training [E,S] [2019]

Pallet trucks are more agile and easier to handle than a forklift. And when palletized loads need to be moved around a workplace, "walkies" and "walkie riders" can do a great job. But as with all material handling equipment, pallet trucks can create serious hazards if they're misused, leading to severe injuries and even fatalities.

Move It Safely: Avoiding Injury While Moving Materials Interactive Training [E,S] [2013]

Two of the main causes of injuries to material handling workers are attempting to show off to their co-workers and not wanting to take time to get the proper equipment or ask for help. This leads to workers struggling to lift and carry materials which are too heavy to be moved safely.

My Precious Eyes - The Gory Story Interactive Online Training [E] [2005]

My Precious Eyes - The Gory Story Details

My Precious Eyes - The Gory Story program will increase your safety awareness. This program focuses on increasing safety awareness on one of the most basic topics in the safety industry - eye injury prevention. We take a look at what contributes to eye injuries, how they can be prevented, better training and education. This film will make a lasting impression since we will show you things you need to know about your precious eyes.

New OSHA Safety Regulations for Cranes and Derricks in Construction Online Training [E] [2010]

In response to growing concerns over crane safety, Occupational Safety & Health Administration (OSHA) recently released new crane and derrick safety standards. The rules will affect more than 4.8 million employees of crane and construction companies nationwide. This program will elaborate on the new standards and the employers' responsibilities.

Office Safety: Hazards and Prevention Interactive Online Training [E,S] [2024]

This training will help you learn the potential hazards in an office workplace and prevention methods.

Operating A Telehandler Safely interactive Online Training [E] [2011]

The telehandler can lift up to 10,000 pounds and extend outwards 30 to 40 feet. They can tilt the load left or right to balance the load equally or to align the load to where they can precisely set down or dump the load. The telehandler operator must be competent in

Operating Order Selectors Safely Interactive Training [E,S]

This program examines some common hazards posed by the operation of order selectors and how to control these hazards through safe operating practices.

Orientation to Laboratory Safety Interactive Training [E] [2014]

Atlantic's Orientation to Laboratory Safety video Program shows both new employees and seasoned veterans the importance of safety in the laboratory... as well as reviews the OSHA regulations and good safety practices that apply to laboratory environments.

Orientation to Safety for New Employees Interactive Online Training [E] [2020]

Orientation: Safety in the Workplace Interactive Online Training [E,S] [2022]

Federal law entitles all employees to a safe workplace. A safe working environment is defined as one that is "free from recognized hazards that are causing or are likely to cause death or serious physical harm to ... employees." In this training, you are exposed to common OSHA-recognized injury, illness, and fatality categories. You will also explore examples of other sources of harm that may not immediately fall under OSHA's General Duty Clause.

OSHA Formaldehyde Standard Interactive Training [E] [2014]

Atlantic's The OSHA Formaldehyde Standard video Program provides training that is required by this standard, focusing on the rules and procedures that the standard establishes for working with this potentially dangerous chemical.

[OSHA Regulations: General Recordkeeping Interactive Online Training \[E,S\] \[2024\]](#)

Master OSHA's Recordkeeping Rules for workplace safety, including key forms, timelines, and reporting rights.

[Overhead Pendant Hoist Safety \(Machinery\) Online Interactive Training \[E,S\] \[2008\]](#)

Overhead Pendant Hoist Safety program will focus on overhead rail mounted hoists. Many organizations make use of overhead or also known as pendant hoists. This versatile equipment is typically used to safely maneuver heavy loads around shops, treatment plants, pump stations, and other locations. For the purpose of this short video, we will be focusing on overhead rail mounted hoists. Of these types of hoists, some of the most common operating systems are electric, pneumatic, and hand operated chain hoists.

[Overhead Pendant Hoist Safety - Manufacturing Online Interactive Training \[E,S\] \[2008\]](#)

The overhead pendant hoist is used to safely maneuver heavy loads around shops, treatment plants, pump stations and other locations. This program will focus on overhead rail mounted hoists. These hoist operating systems are electric, pneumatic and hand-operated chain hoists.

[Overhead Pendant Hoist Safety Online Interactive Training \[E,S\] \[2008\]](#)

The overhead pendant hoist is used to safely maneuver heavy loads around shops, treatment plants, pump stations and other locations. This program will focus on overhead rail mounted hoists. These hoist operating systems are electric, pneumatic and hand-operated chain hoists.

[Oxygen Acetylene Welding And Cutting Safety Interactive Online Training \[E\] \[2011\]](#)

There is a wide range of potential hazards when using welding and cutting equipment. This training program is designed to review basic safety procedures for oxygen-acetylene welders. This program concentrates on the equipment and not on other hazards associated with welding.

[Patient Care: Safe Handling Interactive Online Training \[E,S\] \[2024\]](#)

This course explains how to start an SPH program and reviews patient handling hazards and proper transferring techniques.

[Patient Decontamination Interactive Training by Efilm \[E\] \[2007\]](#)

This course explains the importance of hospital decontamination plans for large numbers of casualties in the event of a major terrorist, hazmat or natural catastrophe resulting in contaminated patients. Without a plan, hospitals risk contamination of staff, patients and the facility. This program, which follows the Joint Commission's accreditation standards for decontamination and emergency planning, outlines the process of quickly mobilizing a hospital decon team. It is ideal for training new decon teams as well as for refresher training.

[Planning for Laboratory Emergencies Interactive Training \[E\] \[2014\]](#)

Atlantic's Planning for Laboratory Emergencies video Program discusses how to minimize damage and prevent injuries if a laboratory emergency should occur.

[PowerLift: Lifting Techniques For A Healthy Back Online Interactive Training \[E\] \[2017\]](#)

Most workers have been instructed to lift objects safely by using the "old way" of lifting; unfortunately, this method contains many flaws that result in unnecessary and very harmful stress on our backs. Lifting while balancing on the balls of our feet, too much bending of the knees, leverage that places excessive force on the lower back and overextending the spine beyond its base of support are all problems associated with this approach.

[PPE: Are You Covered Interactive Online Training \[E\] \[2018\]](#)

Employers and employees are required to utilize the right type of PPE for the job they are performing. Understanding what PPE (Personal Protective Equipment) is, how it's used when to use it and the different kinds of PPE available will help prevent injuries and keep your work environment safer.

Preventing and Managing Fatigue for CMV Drivers Interactive Online Training [E] [2023]

Atlantic Training's course on "Preventing and Managing Fatigue for CMV Drivers" discusses how you can manage fatigue when you're on the road... as well as "sleep strategies" that you can use both on the road and at home to make sure you are getting enough good quality sleep.

Preventing Contamination in the Laboratory Interactive Training [E] [2014]

Atlantic's Preventing Contamination in the Laboratory Program emphasizes the need to recognize situations that could lead to contamination, and discusses what can be done to prevent contamination from occurring.

Preventing Sexual and Other Forms of Harassment for California Employees Interactive Training Video [E] [2020]

Now all employees in the state of California need to be trained on how to prevent sexual and other types of harassment in the workplace, not just managers and supervisors...and the first training deadline, January 1, 2021, is fast approaching. The new course "Preventing Sexual and Other Forms of Harassment for California Employees" satisfies this new training requirement, helps employees recognize sexual and other forms of harassment, and discusses how to deal with them.

Preventing Slips and Falls In Restaurants Online Interactive Training [E] [2009]

Preventing Slips and Falls In Restaurants Details

Slips and falls can occur in all industries. These accidents occur because people are not paying attention. This program will focus on the causes, prevention and behaviors.

Product Development: Design, Strategy and Launch Interactive Online Training [E,S] [2024]

From concept to customer: Master the essential steps for researching, testing, and successfully launching your next product.

Project Management: Fundamentals Interactive Online Training [E,S] [2024]

Master the core principles of project management: leading a team to achieve your goals within a given set of constraints.

Propane Safety Online Interactive Training [E] [2008]

This program provides basic knowledge of proper cylinder refueling operations by vehicle operators with an emphasis on safety.

Propane Safety: Fueling Your Forklift Interactive Online Training [E,S] [2018]

Quality Management: Assurance and Control Interactive Online Training [E,S] [2023]

In this course, you'll gain a foundational understanding of Quality Management, exploring the key concepts of Quality Assurance (QA) and Quality Control (QC) and how they work together to drive quality performance.

Radiation Safety (Universities) Interactive Training [E]

Radiation is a critical part of safety program. A Radiation Safety Plan includes the basics of training, engineering controls, personal protective equipment and work practices designed for protection. This program covers topics on radiation safety and how you can use this information to stay safe and healthy in your work environment.

RCRA Hazardous Waste Final Rule: The E-Manifest System And Other Key Revisions Interactive Training [E] [2019]

The EPA's recently updated RCRA rule is designed to make hazardous waste handling regulations easier to understand and to facilitate better compliance. This program reviews the important revisions mandated in these latest guidelines. The new E-Manifest system is explained in detail to show viewers how to provide more accurate and timely tracking information on hazardous waste shipments electronically instead of using outdated paper forms. The EPA's goal is to phase out written manifests within the next four years, so it is critical that your employees understand how the new system works.

Reach Truck Safety Interactive Training [E,S] [2017]

Real Story About Hand Washing and Bacteria Interactive Online Training [E]

According to health experts, washing your hands reduces the spread of viruses and other organisms that cause disease.

This program covers the subjects of hand washing, sanitizing, gloves, clothing and bacteria. Melody Glave, training consultant, is featured in this film.

Real Story About Hand Washing and Bacteria Online Interactive Training [E] [2006]

According to health experts, washing your hands reduces the spread of viruses and other organisms that cause disease.

This program covers the subjects of hand washing, sanitizing, gloves, clothing and bacteria. Melody Glave, training consultant, is featured in this film.

Rear Loader Safety and Operations Interactive Online Training [E] [2007]

Rear loaders are designed for speed of operation, safety and ease of loading. Rear loaders require a vehicle pre-trip safety and operational inspection, the same as other vehicles. The operator must have a good attitude about accident prevention and vehicle operating procedures. The program focuses on vehicle operation with emphasis on safety.

Reasonable Suspicion Training for Managers: Substance Abuse Testing Interactive Online Training [E,S] [2023]

Reasonable suspicion training for managers ensures supervisors understand their role and responsibility for initiating and carrying out the drug-free policy and program.

Remote Work: Success Strategies Interactive Online Training [E,S] [2023]

Working from home blurs the line between personal time and work hours. This training will provide some strategies to help you create those boundaries or best practices to help you work efficiently and safely remotely.

Respiratory Protection: Employee Safety Interactive Online Training [E,S] [2023]

This training will help you navigate respiratory hazards, properly use respirators, and ensure safety under OSHA guidelines.

Respiratory Protection: The Facts Interactive Training [E,S] [2017]

Atlantic's Respiratory Protection and Safety video Program has been created specifically to involve employees in the process of understanding respiratory hazards and to help facilities in fulfilling OSHA's Respiratory Standards (29 CFR,1910.103, 134) training requirements. The video program includes OSHA and NIOSH changes to their respiratory protection training requirements, such as fit testing protocols and cleaning/disinfecting procedures. The video program shows examples of the N class respirators and other respirators being used in a variety of settings.

Rest Stop Routine Interactive Online Training [E] [2009]

Working in the trucking industry increases a person's risk for developing musculoskeletal problems and other health problems due to the long hours in the same sedentary position. The work posture required in this industry is forward head and hunched shoulders. This program offers various exercises for specific areas of the body that are affected by sitting for long periods of time in the same position.

Restaurant - Sanitation And Health Food Service Workers Interactive Online Training [E] [2006]

Sanitation And Health For Food Service Workers - Food borne illness is quite prevalent in the home, restaurants, hotels, retail establishments, even school cafeterias. Through someone's carelessness, micro-organisms were allowed to get on the food such as chicken, beef, pork, and a variety of other foods.

Rigging Safety in Industrial & Construction Environments Interactive Training [E,S] [2019]

Atlantic's training products on "Rigging Safety in Industrial and Construction Environments" review the hazards associated with rigging and moving loads, and discuss the equipment and safe work practices that employees should use to avoid them.

[Roll Offs and Safety Operations Interactive Online Training \[E\] \[2002\]](#)

Roll Offs and Safety Operations Details

Roll offs carry a large load and are a large part of business. They have the potential of causing serious injuries or property damage if not handled properly. It is important to continue improving safety awareness and accident prevention. This program covers the operation of roll offs with emphasis on safety.

[Safe Driving Practices \[E\]](#)

Motor vehicle crashes are the leading cause of accidental deaths and injuries in the United States. Many businesses and agencies have recognized the direct benefits of safe driving programs, not only in the number of lives saved and injuries reduced, but also in the decreased hospitalization costs, lost production time, vehicle downtime, and insurance rates. This course will help you recognize what it means to be a "safe" driver and will help you identify areas you may need to focus on to increase your own safe driving skills. Using safe choices and habits, you will learn how to make good choices for safety and how to develop good habits to avoid the bad choices other drivers may make.

[Safe Driving Practices for CMV Drivers \[E\]](#)

This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), covers the Defensive Driving portion of the Federal Motor Carrier Safety Administration (FMCSA) Accident Countermeasures Manual. Employing defensive driving techniques makes every driver on the roadway safer. This course provides driving tips and maintenance checks to help CMV drivers use defensive driving techniques while operating CMVs.

[Safe Driving: Defensive Driving Techniques Interactive Online Training \[E,S\] \[2024\]](#)

Master situational awareness, speed management, and emergency preparedness for safe and stress-free driving.

[Safe Handling of Laboratory Glassware Interactive Training \[E\] \[2014\]](#)

Atlantic's Safe Handling of Laboratory Glassware video Program discusses the nature of various types of glassware, and the problems it can cause... as well as the need for employees to use and maintain laboratory glassware safely.

[Safe Operation of Cranes and Hoists \(Machinery\) Online Training \[E\] \[2008\]](#)

There are a variety of cranes, hoists and rigging devices used for lifting and moving material. It is important to use caution and exercise good judgment when working around or near this equipment. This program emphasizes the safety procedures when operating cranes and hoists.

[Safe Operation Of Scissor And Boom Lifts - French Online Interactive Training \[E\] \[2006\]](#)

This video discusses the procedures lift operators must follow to prevent these types of incidents.

[Safety 101: OSHAs Top 10 Interactive Online Training \[E,S\] \[2022\]](#)

Whether your career philosophy is that you live to work, or if you work to live, your health and safety should never be sacrificed for productivity. Whatever your position – laborer, supervisor, technician, safety officer, machine operator, or any other role – you must become aware of the hazards involved in your work and the strategies required to ensure safe work and respond to emergencies. Every task comes with its own set of risks. Think about your work environment. What could go wrong?

[Safety and The Supervisor Interactive Online Training \[E\] \[2009\]](#)

Safety and the Supervisor program includes comments from experts in the field of safety. Emphasis is on the responsibility of the supervisor, counseling and accident investigation. As a supervisor, you are responsible for accident reports, safety training, making sure employees follow safety rules and wear personal protective equipment. Supervisors must know company policies and procedures and train employees. The supervisor is the only person having direct control over employees therefore; the supervisor is absolutely responsible and accountable for safety.

[Safety Audits Interactive Training \[E,S\] \[2004\]](#)

Atlantic's Safety Audits video Program informs employees about the goals of a Safety Audit, and how all workers should

Safety Bob's Comprehensive Construction Safety Orientation Interactive Online Training [E,S] [2013]

Construction work is very dangerous, as nearly 1,000 workers are killed and thousands of others are injured on construction jobsites each year. While there have been many safety improvements over the years to control the hazards that contribute to these incidents, new and inexperienced workers still get hurt on the jobsite way too often. This program stresses the point that these workers must be responsible for their own personal safety. Construction Safety Specialist Bob Synnott discusses the hazards of construction work and what actions construction workers can take to avoid mishaps on the job.

Safety Decision-Making: Overcoming Human Nature Interactive Online Training [E,S] [2012]

Many people assume that workers will choose to work safely simply because they don't want to get hurt. Unfortunately, our decision-making process isn't that simple. This program, hosted by safety professional Tom Harvey, uses common examples, reenactments and a little humor to explain how humans are tempted to make unsafe choices by succumbing to the instant gratification of shortcuts, risk-taking and peer pressure.

Safety Leadership: An Essential Safety Element Interactive Online Training [E,S] [2017]

Every successful safety program is built on a foundation of essential elements. One such element is "Safety Leadership." Safety Leadership can be defined as "the influence of a person's words or actions on the safety decisions made by others." It's important to note that safety leadership comes from everyone, including the newest employee, the experienced worker, the front line supervisor, and the plant manager. Safety leaders speak up and do not condone unsafe acts, nor do they take shortcuts to make a job easier or faster. Effective safety leadership must also include discipline and consistent rules enforcement from managers and supervisors. It's also important to understand that Safety Leaders don't have to be vocal. The quiet leadership exhibited by workers who always follow the safety rules also has a powerful effect.

Safety on or Near Water Streaming Interactive Course [E] [2010]

Safety on or Near Water Details

Safety on or Near Water video discusses some of the many hazards of working on or near water. Some of these hazards can include drowning, slips and falls, personal floatation, electrical shock, and more.

Safety Orientation & Awareness: Industrial Environment Interactive Online Training [E,S] [2016]

Safety Orientation in Construction Environments Interactive Training [E,S] [2018]

Every year, on-the-job accidents cause millions of painful and sometimes debilitating injuries, and cost American businesses almost \$90 billion dollars in medical bills, lost wages and lost productivity. But most of these incidents are preventable. Atlantic's "Safety Orientation in Construction Environments" products discuss common hazards that can be encountered on a job site and the safe practices and equipment that workers can use to avoid injuries.

Safety Showers & Eye Washes in the Laboratory Interactive Training [E] [2014]

Atlantic's Safety Showers and Eye Washes in the Laboratory video Program reviews the correct ways to use this equipment, and emphasizes the need for quick action after a chemical splash or spill in a laboratory.

Safety Showers & Eye Washes Interactive Training [E,S] [2020]

Atlantic's Safety Showers and Eye Washes video Program reviews for employees situations where safety showers and eye washes should be used, as well as how to properly use them.

Sanitation For Cafeteria And Food Service Areas Interactive Online Training [E] [2005]

Sanitation For Cafeteria and Food Service Areas Details

Sanitation for Cafeteria and Food Service Areas program will focus on cleanliness, sanitation, food temperatures, and good housekeeping. Foodborne illness is quite prevalent in the home, restaurants, hotels, retail establishments, even school cafeterias. Through someone's carelessness, micro organisms were allowed to get on the food, which can occur with chicken, beef, pork, and a variety of other foods.

[Scaffolding Safety For Employees Interactive Online Training \[E\] \[2011\]](#)

Equip employees with essential knowledge for safe scaffold use and operations.

[Scissor Lifts in Industrial and Construction Environments Interactive Training \[E,S\] \[2022\]](#)

Getting to high places can be difficult in many work environments. Sometimes a ladder is all you need. But in some situations, you will have to use other equipment to do jobs that require you to be elevated while you work. Whether you're on a construction site, inside a warehouse or performing a maintenance job "up high", scissor lifts can help you to reach high places when a ladder just isn't enough.

[Self-Contained Breathing Apparatus SCBA Interactive Training \[E\] \[2013\]](#)

Self-Contained Breathing Apparatus SCBA Details

Self-Contained Breathing Apparatus (SCBA) (Safety Video)

A self contained breathing apparatus, or SCBA, by employees working in IDLH (immediate danger to life and health) atmosphere. An SCBA typically has three main components: a high-pressure tank, a pressure regulator, and an inhalation connection (mouthpiece, mouth mask or face mask), connected together and mounted to a carrying frame. This video discusses several topics related to working with an SCBA such as SCBA masks, pressure gauges, air tanks, regulators, adjustment straps, facial hair regulations, fit testing and SCBA overview.

Keywords: SCBA, Self-Contained Breathing Apparatus, SCBA face masks, pressure gauges, air tanks, regulators, adjustment straps, facial hair regulations, fit testing and SCBA overview

[Sexual Harassment for Employees Interactive Online Training \[E,S\] \[2018\]](#)

Sexual Harassment is an unfortunate situation for any employee to deal with in the workplace. Nobody wants to feel uncomfortable at work. With Atlantic Training's premier safety video on Sexual Harassment for Employees, your personnel can learn how to deal with these situations. Learn about what constitutes as sexual harassment, what an employee should do if they are feeling harassed, and the measures to take when reporting the harassment. At the end of the day, all employees have the right to a healthy, safe, and harassment-free work environment.

[Sexual Harassment for Managers Interactive Online Training \[E,S\] \[2018\]](#)

Sexual harassment in the workplace environment is uncomfortable and uncalled for situation. It can happen with managers and supervisors as well as employees. With Atlantic Training's premier safety video Sexual Harassment for Managers, your management team will learn what sexual harassment is, how to deal with it, and how to report it. They'll learn what Quid-Pro-Quo is and what to do when an employee comes forward.

[Sexual Harassment Prevention in Delaware for Supervisors Interactive Online Training \[E\] \[2019\]](#)

Learn about Delaware's strict laws against sexual harassment, including training requirements and employer responsibilities.

[Sexual Harassment Prevention in Delaware Interactive Online Training \[E\] \[2019\]](#)

Learn Delaware's sexual harassment training with our comprehensive course on legalities, investigations, and accountability.

[Sexual Harassment Prevention in Illinois for Supervisors Interactive Online Training \[E\] \[2020\]](#)

Sexual harassment laws in Illinois protect all employees, with strict employer liability.

[Sexual Harassment Prevention in Illinois Interactive Online Training \[E,S\] \[2020\]](#)

Stay compliant with Illinois law. Sexual harassment training covering key laws, employer duties, and reporting procedures.

[Sexual Harassment Prevention in New York for Managers Interactive Online Training \[E,S\] \[2023\]](#)

Ensure compliance with New York state and city sexual harassment laws for managers and supervisors.

[Sexual Harassment Prevention in New York Interactive Online Training \[E,S\] \[2023\]](#)

A comprehensive course on sexual harassment law and prevention, tailored to New York standards.

Sexual Harassment: Investigating Complaints Interactive Online Training [E,S] [2023]

Sexual harassment - be it anywhere - isn't just about sex. It involves the harasser being hostile toward a victim, abusing power over that victim, and hurting the health and well-being of employees and the organization. Harassment becomes a real problem when it is so frequent and severe that it creates a hostile or offensive work environment, or results in an adverse employment decision, such as the employee being demoted or even fired.

Shattered: The Jeff Walters Story Interactive Online Training [E,S] [2010]

This program combines testimonials, a live presentation and reenactments to teach important safety lessons! Jeff Walters, a young newlywed, was more interested in earning the respect of his co-workers than being concerned for his own safety. He saw a broken limit switch on a 19-foot elevated conveyor as his opportunity to impress his co-workers with his abilities and willingness to do whatever it takes to get a job done. After climbing the conveyor without doing a lockout or wearing fall protection, Jeff fell 19 feet to a concrete floor when the conveyor started unexpectedly.

Shop Safety Interactive Training [E,S] [2016]

Short Service Employee For Gas And Oil Industry Safety Interactive Online Training [E] [2013]

Silica Exposure: Prevention and Response Interactive Online Training [E,S] [2023]

This course is designed to equip workers across various industries – including construction, mining, and manufacturing – with critical knowledge and strategies to prevent and respond to silica exposure.

Six Steps to Lockout/Tagout (Micro) Interactive Online Training [E,S] [2019]

Engage and educate employees with our 5-minute Safety Shortcut program on The 6 Steps to Lockout/Tagout. Use this training for your next tailgate talk or weekly safety meeting.

Skid Steer Safety Interactive Online Training [E] [2009]

Skid steer equipment has become the number one workhorses for public works and construction. With trenchers, plows, grapples, buckets and hoes and hydraulic breakers as attachments, their versatility is limitless. Manufacturers of this equipment include Bobcat, John Deere, CAT, and New Holland to name a few. This equipment can stop on a dime, spin in circles, climb, dig and a variety of other tasks. As interesting as they are to operate, there are potential risks to the operator and those working around them.

Skin Cancer Awareness Interactive Online Training [E]

This program is designed to provide basic skin cancer awareness. Additionally, the goal is to reduce exposure of skin cancer to workers exposed to the sun or welding operations. The objective is to make workers aware of skin cancer, seek medical attention if warranted, conduct self and professional examinations of the skin and to eliminate or reduce the severity of skin cancer. Skin cancer can be life threatening, if not detected and treated early.

Slips, Trips & Falls Interactive Online Training [E,S] [2021]

Atlantic's Slips, Trips and Falls video Program shows employees the situations that can lead to slips, trips & falls, and what they can do to avoid or prevent these accidents.

Small Vehicle Safety: Golf Carts and UTVs Interactive Online Training [E,S] [2023]

Master small utility cart and golf cart safety: drive responsibly, protect passengers, maintain your vehicle, and navigate with confidence.

Sodium and Calcium Hypochlorite Interactive Training [E] [2008]

Sodium and calcium hypochlorite are widely used as a disinfectant in water and wastewater agencies. These products are commonly used as pool and spa disinfection products. These powerful agents kill bacteria and other pathogens such as viruses, parasites, and fungus that may be in the water supply. This program will cover the use, storage and safe use of sodium and calcium hypochlorite.

[SPCC for General Industry - Complete Program Interactive Online Training \[E\] \[2018\]](#)

This training covers EPA regulations related to oil and the SPCC plan.

[SPCC Oil and Water Do Not Mix Interactive Online Training \[E\] \[2014\]](#)

Learn about SPCC plans, oil pollution regulations, and oil storage and transfer procedures.

[Speed Management Interactive Online Training \[E\] \[2010\]](#)

Speed Management Details

Defensive driving is the key to your survival and the success of the company. According the Federal government research, there are nearly 150,000 heavy truck/bus crashes every year. About 5,000 result in fatalities and 60,000 results in injuries. Drivers should have control of the speed of their trucks. This program focuses on controlling the speed of your truck in various weather, road and environment conditions. This program is great for school bus drivers and anyone operating a large vehicle.

[Spotlight on Fire Safety: Emergency Action Plans Online Course \[E\]](#)

This course provides a spotlight on one topic of Fire Safety and Emergency Preparedness (General Industry) - Emergency Action Plans.

[SpotLight on GHS Hazard Communication: Labels Online Course \[E\]](#)

This course provides a spotlight on one topic of GHS Hazard Communication â€œ Labels.

[SpotLight on GHS Hazard Communication: Safety Data Sheets Online Course \[E\]](#)

This course provides a spotlight on one topic of GHS Hazard Communication â€œ Safety Data Sheets.

[Steel Erection \(Construction\) Online Course \[E\]](#)

The Occupational Safety and Health Administration (OSHA) designs and enforces standards to assure a safe work environment for America's workers. Because workers involved in steel erection face specific hazards, OSHA has developed standards to address and help minimize those hazards.

This course covers the OSHA Construction standards for employees involved in steel erection activities.

[Stormwater: Erosion Control and Pollution Prevention Interactive Online Training \[E,S\] \[2023\]](#)

Protecting our environment and minimizing the impact of stormwater runoff is essential in today's construction industry. This introductory course on Stormwater Pollution Prevention equips participants with the knowledge and skills needed to effectively manage stormwater and prevent pollution on and from construction sites. Designed for construction professionals and individuals responsible for environmental compliance, this training provides a solid foundation in stormwater management practices and regulatory requirements.

[Stress Management For Supervisors and Employees Online Training \[E\] \[2006\]](#)

Stress has become a very big problem in industry. One of the reasons why stress is a problem is because most people are unaware that they are experiencing stress until it becomes a problem. This program is hosted by Dr. Edward Sheldon who gives advice on how to handle stress on the job.

[Sulfuric Acid and Hydrochloric Acid Training Video by Efilm Interactive Training \[E\] \[2005\]](#)

"Sulfuric Acid and Hydrochloric Acid," a safety training program about the hazards of acids and safe response to incidents involving acids. Corrosives have a destructive and irreversible effect on tissue. This program provides important safety information for workers who use, store or transport sulfuric or hydrochloric acid, as well as for emergency response personnel who might respond to an incident involving corrosives. Topics:

How to identify corrosive acids

Reactivity problems

Neutralization operations

Emergency medical operations for accidents

Steps to take in an uncontrolled leak, spill or fire

How to control runoff

Vapor control

Decontamination

This safety training video is part of the Hazchem Series

Supervisor and Manager Liability Interactive Online Training [E] [2009]

Employee safety at work is of great importance. It is the law and there are penalties if a worker is injured. This program is for supervisors and managers and how to protect themselves from legal penalties and sanctions. Information also includes understanding the risk, liabilities, responsibilities and obligations.

Supervisor Leadership Excellence - Team Building Interactive Online Training [E] [2009]

This program has on camera professionals talking about their experiences in team building. A strong team requires a good game plan. Developing the competent team requires employees and supervisor to commit to the idea that it's essential to support each other. Supervisors who want to establish a team should first understand the group or teams social structure.

Supervisor Leadership Excellence - Time Management Interactive Online Training [E] [2009]

Time is a priceless commodity. Some people use it wisely, others squander it. You have more things to do than you think you can effectively handle. How can you be expected to perform all the responsibilities of your job without more help or more time? How you choose to spend your time is up to you.

Supported Scaffolding Safety in Industrial and Construction Environments Online Training Course [E,S] [2018]

Atlantic's "Supported Scaffolding Safety in Industrial and Construction Environments" courses discuss supported scaffolds, how they should be constructed, the hazards that are associated with them, the OSHA regulations that address these hazards and the equipment and procedures that employees should use to work with them safely.

Suspended Scaffolding Safety in Construction Environments Interactive Training [E,S] [2009]

Atlantic's Suspended Scaffolding Safety in Construction Environments video Program assists facilities of all types in complying with OSHA's Scaffolding regulation (29 CFR 1926.451), and helps employees understand the dangers of working with scaffolds, and how these risks can be minimized by knowing the correct ways to erect, maintain and use scaffolding equipment.

Suspended Scaffolding Safety Interactive Training [E,S] [2004]

Atlantic's Suspended Scaffolding Safety video Program assists facilities of all types in complying with OSHA's Scaffolding regulation (29 CFR 1926.451), and helps employees understand the dangers of working with scaffolds, and how these risks can be minimized by knowing the correct ways to erect, maintain and use scaffolding equipment.

Take Safety Home: Preventing Off-Job Injuries Interactive Online Training [E,S] [2009]

After working 25 years as a firefighter and paramedic, Martin Lesperance has treated thousands of injuries and medical emergencies. Now retired, Martin is a popular safety speaker, sharing his experiences with workers in order to prevent injuries. As a former EMT, Martin knows that the majority of injuries occur off the job and conducted this presentation in front of a live audience to encourage all workers to "take safety home."

Take Time for Safety Interactive Online Training [E,S] [2011]

In our busy lives, we are often faced with time-management choices. When given the chance, we must always choose safety over time savings, because rushing causes us to lose focus, skip steps, and make bad decisions. In fact, the time we spend staying safe is time well spent. In this program, workers learn the very real hazards associated with rushing and being in a hurry. Through various examples, viewers will learn to recognize the symptoms of becoming rushed, why "hurried working" is so dangerous and what steps they can take to stay safe. The program also makes the point that being in a hurry is not the real cause of incidents and injuries, but rather a symptom of poor planning, poor choices and poor time-management--all of which can be prevented by proper preparation and organization.

The Bed Bug Problem Online Interactive Course [E]

The recent outbreak of bed bugs since World War II has sent a fear among apartment dwellers, college students and travelers the nation. Bed bugs resist many pesticides and spread quickly in certain mattress-heavy buildings such as hotels, dormitories and apartment complexes. Bed bugs carry no known disease and health departments do not consider it a public health threat. This program will focus on how bed bugs affect and gain access in dwellings, their biology, infestations, bites, feeding habits, and how to eliminate them.

[The Foreign Corrupt Practices Act Made Simple Interactive Online Training \[E,S\] \[2016\]](#)

Explore FCPA essentials: anti-bribery, accounting, consequences—ensuring ethical global business practices.

[The Line Of Fire Interactive Online Training \[E,S\] \[2005\]](#)

This program discusses many workplace hazards and outlines general principles that can help employees prevent these hazards from causing serious injuries and deaths.

[The Mark Standifer Story: Lessons Learned From an Arc Flash Tragedy Interactive Training \[E,S\] \[2004\]](#)

Mark Standifer received 2nd and 3rd degree burns over 40 percent of his body and was nearly killed when he was engulfed in an arc blast while performing an electrical task at a wastewater treatment plant. While installing relays on the door of a 13,800-volt switchgear, he made several crucial errors resulting in a tragedy that will affect Mark and his family for the rest of their lives.

[The Safety Supervisor: Orientation and Overview Interactive Training \[E,S\] \[2018\]](#)

[There's No Excuse For Unsafe Acts Interactive Online Training \[E,S\] \[2008\]](#)

Unsafe acts always have the potential to cause injury or death no matter the excuse or justification used to commit them. That's the theme of this fast-paced new program that stresses to viewers that they must put safety first in every job they perform by wearing proper protective equipment, following safe work practices, using the correct tool for the job and asking for assistance when unsure how to proceed safely. The video also underscores the point that injuries that result from making excuses to commit unsafe acts aren't accidents; they are the consequences of our purposely placing ourselves in harm's way.

[To The Point About Preventing Electric Shock Online Training \[E,S\]](#)

Your facility's plan to protect employees from electrical hazards combined with following shock prevention practices allows workers to stay safe when working with or near electricity. This program provides an overview of how interrupters work and explain the safe work practices workers can follow to prevent electric shock-related injuries and fatalities.

[To The Point About: Eliminating Driving Distractions Interactive Online Training \[E\] \[2020\]](#)

[To The Point About: Handling Materials Safely Online Interactive Training \[E\] \[2017\]](#)

Handling materials safely, whether by lifting and carrying objects by yourself or by moving them with mechanical devices such as hand trucks and forklifts, doesn't have to be difficult, but it does require effort and a good safety attitude. This program discusses the safe work practices workers must follow to prevent injuries and property damage while transporting loads throughout the workplace.

[To The Point About: Industrial Crane Safety Interactive Online Training \[E\]](#)

Cranes come in a wide variety of sizes, configurations and capacities to lift and transport various products and materials used in industry. Because of the serious hazards presented by crane operation, crane operators must be fully qualified and 100 percent committed to the safe operation of their crane. That is the purpose of this program—to review the safety rules, precautions and safe operating practices common to all cranes in order to help crane operators work safely with the specific cranes they operate.

[To The Point About: Lockout/Tagout - Canada Interactive Online Training \[E\]](#)

The unexpected starting of machines or other unplanned releases of hazardous energy can have devastating consequences. Controlling hazardous energy can prevent injuries and save lives. This program explains the procedures workers must follow to protect themselves during lockout operations.

[To The Point About: Respiratory Protection Interactive Online Training \[E\] \[2019\]](#)

Our workplace is full of hazards, hazards that can hurt us or kill us. Controlling these hazards and preventing injuries is the point of our safety and health program. One such hazard is presented by airborne contaminants that can cause lung damage, cancer and other serious conditions. The proper use of respiratory protection to defend against these hazards can prevent illnesses and save lives.

That's the point of our facility's Respiratory Protection program and that is the point of this program. So, pay close attention as we get to the point about Respiratory Protection.

To The Point About: Safe Forklift Operation - Canada Interactive Online Training [E] [2015]

Unsafe operation of forklifts often contributes to property damage and employee injuries. Ensuring that drivers operate forklifts in a safe manner can prevent injuries and save lives. This program reviews the proper operating procedures forklift operators must follow to keep themselves and their co-workers safe

To The Point About: Safe Operation of Aerial Work Platforms Interactive Online Training [E] [2017]

Learn safe operation of aerial work platforms.

To The Point About: The Safe Operation of Powered Pallet Jacks Online Interactive Training [E,S] [2022]

Our workplace is full of hazards, hazards that can hurt us or kill us. Controlling these hazards and preventing injuries is the point of our safety and health program. One such hazard is the one presented by the unsafe operation of powered pallet jacks, also known as pallet trucks. These vehicles have the potential to be very dangerous, so it is critical that operators always remain focused on their safe operation.

Toxic Mold: The Facts Interactive Online Training [E]

This video takes the mystery out of this sensitive subject and informs viewers of exactly what toxic mold is, the hazards involved and some possible solutions.

Trench and Excavation Rescue Safety by Efilm Interactive Online Training [E] [2006]

Explore trench and excavation rescue safety. Learn essential techniques, equipment, and protocols for safe rescue operations.

Trenching and Shoring Safety in Construction Environments Interactive Training [E,S] [2016]

Twenty percent of workplace fatalities in the U.S. involve construction workers, but their chances of getting killed on the job more than double when they're working in a trench. An average of two employees are killed every month when the trench they're working in collapses on them. But many of these deaths and thousands of injuries can be prevented. Employees need to understand the hazards that can be encountered in trenching work as well as the OSHA regulations and safe work practices that can prevent accidents from occurring.

Truck Mounted Articulating Knuckle Boom Cranes Interactive Training [E] [2008]

Truck mounted articulating knuckle boom cranes are used to handle, deliver, and pick up a variety of loads. Loads include steel road plate, shoring, trench boxes, boats, vehicles, logs, iron K rail and much more. Poorly trained operators are the reason for many crane accidents in the industry.

Tuberculosis in the Healthcare Environment Interactive Training [E,S] [2016]

At one time, doctors thought they had almost stamped out tuberculosis as a serious health concern in the U.S., but the disease had an alarming resurgence in the 1980s. It is currently one of the most common infectious diseases in the world, and kills more than a million people every year. Healthcare employees are on the front lines in the fight against TB. They also have a significant risk of exposure to the disease. "Tuberculosis in the Healthcare Environment" from Atlantic can provide them with the latest information on the tuberculosis threat, the infection hazards they may encounter in their job and the steps they can take to avoid them.

Understanding & Controlling Ergonomic Risk Factors Interactive Online Training [E,S] [2015]

Ergonomics can be complicated, but this program provides a simple explanation all employees can understand. Ergonomic controls are used in almost all workplaces to prevent musculoskeletal disorders (MSDs), also called cumulative trauma disorders or repetitive stress injuries. Workers often ignore the signs and symptoms of these disorders until a chronic condition has developed and they often don't know the measures they can take to prevent them.

Understanding People Online Interactive Training [E] [2008]

Understanding People - A Supervisor's Perspective program is designed to provide an overview of how these relationships occur and the basic psychology of human behavior.

The most important aspect of leadership is the relationship developed between management and employees. This

[Understanding Your Facility's Stormwater Pollution Prevention Plan \[E,S\]](#)

All employees need to know the overall scope of your organization's Stormwater Pollution Prevention Plan and the role each person plays in its success. Pollution spread by contaminated stormwater is a real problem and providing your employees with an understanding of your facility's plan is the purpose of this program.

[Understanding Your Facility's Stormwater Pollution Prevention Plan Interactive Training \[E,S\]](#)

All employees need to know the overall scope of your organization's Stormwater Pollution Prevention Plan and the role each person plays in its success. Pollution spread by contaminated stormwater is a real problem and providing your employees with an understanding of your facility's plan is the purpose of this program.

[Universal Precautions - Infection Control Procedures Online Training \[E,S\] \[2012\]](#)

Infection Control Procedures - Universal Precautions - Infection Control Procedures program addresses the procedures and accepted practices relating to infection exposure. Infections can be deadly they can destroy your health and certainly are hazards to avoid. With the proper precautions and information, you can reduce your chances of contracting and spreading infections. Certainly, the most deadly forms of infections are Hepatitis B and the AIDS viruses. Universal precautions to reduce infections is a well established program and there are other isolation precautions as identified in the Centers of Disease Control Guidelines for isolation precautions, but this program addresses the generally accepted practices related to all types of infections. Your responsibility is to know and understand your healthcare institution's policies and procedures and follow these rules according to these guidelines.

[Universal Waste Collecting, Processing & Recycling Interactive Online Training \[E\] \[2021\]](#)

Train on 40 CFR Part 273, Federal Universal Waste regulations.

[Universal Waste Interactive Online Training \[E\] \[2023\]](#)

Disposing of hazardous waste can be a long and complicated process, but some hazardous waste materials are less harmful to people and the environment than others. So to make it easier to recycle these low-risk hazardous waste materials, the EPA created a different class of hazardous waste called "universal waste". And even though the criteria for their disposal aren't as strict as for other hazardous wastes, there are still processes and procedures that must be followed to ensure that they are handled and transported safely.

[University Laser Safety Interactive Online Training \[E\]](#)

Laser safety is a critical part of any university's laboratory safety program. The purpose of this program is to provide you with guidance in the safe use of lasers. This program will include a brief discussion on the classification of lasers.

[Unsafe Acts - Human Behavior Details Interactive Training \[E\] \[2005\]](#)

According to the insurance industry, government agencies and the National Safety Council, most industrial accidents and injuries are attributed to unsafe acts of employees. Unsafe acts mean taking a shortcut in a work procedure, not following company safety rules and negligence. This program will focus on the types of unsafe acts by employees and corrective methods.

[Utility Cart Safety Online Interactive Training \[E\]](#)

Utility Cart Safety - Small electrical or gas-powered carts are used to perform a wide variety of tasks. These carts are commonly known as utility, industrial, service, electric carts. This program is designed to outline safety responsibilities on utility carts.

[Valve Crew Safety Interactive Training \[E\] \[2008\]](#)

Valve maintenance tends to get little attention except when there is a main break. According to AWWA, every valve should be operated through a full cycle on a schedule designed to prevent a buildup of deposits. The valve crews are in charge of making sure valves will open and close when required and ensure water quality and adequate fire flows. Operating valves as it relates to Homeland Security since someone could compromise the water system. Organizations that take advantage

Vehicle Inspection and Maintenance for CMV Drivers [E]

Even a safe driver cannot avoid accidents caused by mechanical failure; the best defense against this type of accident is prevention through performing the appropriate inspections. This course, developed in conjunction with the experts from the Transportation Safety Institute (TSI) of the U.S. Department of Transportation (DOT), focuses on the role of the CMV driver in keeping his or her CMV in safe working order by inspecting the vehicle at the start and end of every day. By properly inspecting the vehicle you drive, you will help keep other drivers and yourself safe on the highway. In this course, you will learn about the types of inspections that drivers need to complete, including what to do if defects or problems are uncovered during an inspection. In addition, you will see detailed requirements for some of the equipment covered in the driver vehicle inspections.

Vehicle Inspection Interactive Training [E] [2008]

The Department of Transportation requires truck drivers to perform pre-trip and post-trip inspections. Employees are legally responsible for daily inspection, safe operation and maintenance of all vehicles. This program shows the driver's responsibilities for vehicle inspection and a systematic procedure for conducting the inspection.

Venomous Snakes Interactive Online Training [E] [2010]

There is a fear of snakes but having knowledge about them, your chances of an unpleasant encounter should be reduced and your personal safety eliminated. The creatures in this film fill an important niche in the environment so avoid killing snakes as they benefit all of us.

Walkie Stacker Safety Interactive Online Training [E] [2009]

Walkie Stacker Safety Details

The expertise, experience and professionalism of forklift maintenance mechanics keep the company on the move. A forklift maintenance mechanic must be knowledgeable of engineering, hydraulics, brake and engine systems, fuel systems, cooling systems and much more. Above all, the mechanic's responsibilities include safety. This program is about safety and wearing special protective equipment while performing your job.

Walking & Working Surfaces: Comprehensive Interactive Online Training [E] [2017]

Learn to move safely and avoid injury.

Walking and Working Surfaces in Construction Environments Interactive Training [E,S] [2022]

In the construction industry, falls cause the majority of on-the-job accidents, and result in more than three hundred workers being killed and thousands of disabling injuries each year. But most of them could have been prevented.

Walking and Working Surfaces Interactive Training [E,S] [2022]

We depend on the surfaces that we walk and work on for a lot of things...to provide the support we need to position ourselves properly, to help us use our muscles efficiently, to keep our balance and do our work safely. But we often take their condition for granted, and that is a big mistake.

Walking Safely in Icy Conditions Online Training [E,S] [2017]

There's a good chance that all of us will find ourselves walking on icy surfaces at one time or another. Even a small piece of ice can end up becoming the most dangerous piece of ice in the world if you're not careful. Not only do many people die each year when striking their heads on concrete after a slip on ice, but also many other injuries occur, such as dislocated hips, dislocated shoulders, and broken ankles.

Walking-Working Surfaces (General Industry) Online Course [E]

One of the ten most-cited serious OSHA general industry violations is part of the Walking-Working Surfaces regulations. Violations of 29 CFR 1910.23(c)(1) Open-Sided Floors accounted for 638 OSHA citations in FY 2005. In addition, slips, trips, and falls cause the majority of all general industry accidents and 15% of all accidental deaths. This course covers the OSHA Walking-Working Surfaces standards for General Industry. This includes information on general safety requirements, protection from holes in the floor and walls, ladder safety, and scaffold safety.

Warehouse and Distribution Center Safety Interactive Online Training [E]

Warehouse and Distribution Center Safety program will help you to be more aware of your responsibilities and improve safety in your distribution center.

Warehouse Safety Interactive Training [E,S] [2015]

Atlantic's Warehouse Safety video Program helps employees to stay safe by identifying the specific hazards they can encounter while working in a warehouse, and providing them with the practical procedures that they can use to avoid them.

Water and Sewer Treatment Plant Safety Interactive Training [E] [2006]

Treatment plants can be hazardous even though they are usually nice, clean places to work. Working with and around pumps, electricity, laboratories, and chemicals require special training. This video explains the special safety concerns of operators, technicians, and maintenance personnel.

Welding and Cutting Online Course [E]

Welding and cutting are dangerous operations that require certain safety precautions. To help keep the workplace safe, OSHA provides some general safety guidelines. In addition to the general guidelines, there are some additional safety rules that must be followed for each specific type of welding and cutting - namely, gas welding and cutting, arc welding and cutting, and resistance welding. All of these requirements are covered in this course.

Welding Safety Interactive Training [E,S] [2017]

Atlantic Training's Welding Safety video Program reminds employees that there are indeed a number of hazards associated with welding, and provides the information that they need to work safely when involved with welding operations.

Wellness & Fitness Training Program Interactive Training [E,S] [2021]

Atlantic's Wellness and Fitness video Program shows employees how small changes in lifestyles can produce big benefits. While wellness is a gradual process, eliminating negative lifestyle factors can help keep employees healthy.

What Would You Say? - French Online Interactive Training [E,S]

We all occasionally witness unsafe behavior, but talking with our coworkers about safety can be difficult. We don't want to hurt feelings or make people mad, but we also don't want anyone to get hurt. This helpful video teaches us to effectively communicate with co-workers when we see them behaving unsafely.

WHMIS & the GHS Employee Training - Canada Interactive Online Training [E]

WHMIS helps ensure quality and consistency in the classification and labeling of all chemicals, which improves an employee's ability to quickly understand critical safety information. This program is designed to help employees understand the three key elements of WHMIS: Hazard Classification, container labeling, and Safety Data Sheets.

Winter Safety: Safe Driving Practices Interactive Online Training [E,S] [2024]

Become a more confident driver this winter with expert driving techniques, hazard recognition, and emergency preparedness.

Work Zone Safety Interactive Training [E,S] [2020]

Atlantic's new "Work Zone Safety" training products discuss the hazards that are associated with performing roadway

[Working From Home Interactive Online Training \[E,S\] \[2020\]](#)

Working from home might look like a pretty easy way to make a living, until you have to try it out for yourself. The COVID-19 quarantine has shown everyone that working from home can present some serious challenges.

Atlantic's new "Working From Home" discusses these challenges and what people can do to meet them.

[Working With Benzene Interactive Training \[E\] \[2005\]](#)

The health effects of any toxic substance are related to the amount of exposure, also known as a dose. The greater the dose the more severe the effects. Some chemicals can cause toxicity at very low doses. Parts per million (PPM) is a familiar term to anyone working with chemicals and toxic materials. It is important to understand how very small amounts of toxicity are measured. This program explains the various measurements of contaminants and the hazards of Benzene with emphasis on safety.

[Working with Electricity: Basic Electrical Safety Interactive Online Training \[E,S\] \[2023\]](#)

Arm yourself with electrical safety essentials, from circuit flow to hazard recognition and mitigation in the workplace.

[Workplace Culture 101 Interactive Online Training \[E,S\] \[2023\]](#)

6 Training Shorts designed to immediately improve your company culture.

[Workplace Culture: Building Accountability Interactive Online Training \[E,S\] \[2023\]](#)

[Workplace Culture: Building Effective Teams Interactive Online Training \[E,S\] \[2023\]](#)

Teamwork is defined as more than one person working together toward a shared goal. In its basic form, teamwork doesn't actually require fun, happiness, mutual respect, or any of the positives that form what we think of as an ideal "team." This training is built on the assumption that you care about building a culture of positive teamwork, where those aspects of being on a team are valued. We will discuss the characteristics of effective teams, the benefits of building a culture of working together, and the challenges faced by workplace teams. You will also learn some key strategies for nurturing teamwork â€” including what teamwork looks like in a digital world.

[Workplace Culture: Empowering Employee Decisions Interactive Online Training \[E,S\] \[2023\]](#)

Learn communication, active listening, collaboration, and self-reflection skills essential for career growth and team success.

[Workplace Culture: Positivity in the Workplace for Corporations Interactive Online Training \[E,S\] \[2022\]](#)

"The Power of Positive Thinking" â€” have you heard this phrase before? Everyone generally agrees on the goal of seeking or maintaining personal happiness. We often are also concerned about the well-being of others. In pursuit of this happiness, we might consider work as simply an obstacle or annoyance. Taking a positive approach to the workplace allows us to extend this pursuit to our careers and professional relationships. According to the U.S. Bureau of Labor Statistics, on average we work more than most typical household and leisure activities combined. In other words, we typically spend more time interacting at work than we do with family or friends.

Learn to recognize and prevent "Struck-By" and "Caught-In or -Between" hazards, ensuring a safer construction environment.

Workplace Safety: Injury and Illness Prevention Interactive Online Training [E,S] [2024]

Master I2P2 to enhance workplace safety through effective leadership, hazard control, and continuous program improvement.

Workplace Safety: Using Ladders Safely Interactive Online Training [E,S] [2023]

Ensuring you pick the right ladder based on use, performance capacity, and material is an integral part of ladder safety. Knowing when to use, or avoid, a specific type of ladder will ensure the climber doesn't exceed weight capacity, overreach, or choose a conductive material when working with electricity or during inclement weather. While the extension ladder and wooden step ladders are common, there may be other options available to use. Check the performance rating, and, if you're unsure which ladder is best or safest to use for a job, ask your supervisor to help.

Workplace Security Interactive Online Training [E,S] [2021]

Atlantic Training's new "Workplace Security" course discusses the importance of "workplace security", how to identify vulnerabilities in your facility, and the types of policies that need to be included in your Workplace Security Program.

Workplace Stress Interactive Training [E,S] [2021]

Atlantic's Workplace Stress video Program helps employees identify potentially stressful situations and learn how to cope with them.

Workplace Substance Abuse: Drug and Alcohol Interactive Online Training [E,S] [2023]

Combat substance abuse in the workplace. Gain knowledge and tools to create a safe environment. Suitable for all professionals.

Workplace Violence in Construction Environments Interactive Online Training [E] [2022]

Some people believe that a "certain amount of conflict" on the job is normal. But too often, arguments can escalate into insults, challenges and threats. Sometimes these conflicts can even become physical, and lead to serious injuries... even death. All of these situations are examples of "workplace violence"... and they can happen in any work environment. If they do, it can be stressful, bad for morale and downright dangerous. So how much conflict is too much? And where do we draw the line?

Workplace Violence in Healthcare Facilities Interactive Training [E,S] [2017]

Workplace violence is a serious problem in hospitals, urgent care clinics, nursing homes, doctors' offices and other healthcare facilities across the country. Thousands of assaults occur every week; employees suffer physical and emotional trauma... some even die.

Workplace Violence Interactive Online Training [E] [2022]

Workplace violence costs businesses more than \$100 billion dollars in lost revenue annually. At least two million workers report being assaulted on the job every year. And one in ten fatalities that occur in the workplace is a homicide. But workplace violence can be prevented.
